1952 IRIS AND HEMEROCALLIS CATALOG

Fleur De Lis Gardens

423 CASSELMAN STREET

SIOUX CITY, IOWA

Greetings . . 1952

DEAR IRIS FRIENDS:

It seems good to be sitting here saying Hello to all of you once again and even though I can see the heavily falling snow and the rising drifts outside the window, it doesn't seem at all cold and threatening. Perhaps its just that one knows that March always puts up a bold front before giving way to April. Or perhaps its the feeling one gets when spring draws near and it seems that it is no longer something to look forward to but something to wrap yourself in and rush along with. Possibly its just Spring Fever. At any rate its a nice feeling and it seems to me as if the following lines describe it pretty accurately.

Endless snow and frosted pane, How sure you feel, that winter will not wane.

Till suddenly at dawn you feel the air grow soft—you hear a Robin sing.

And while the earth breathless deep in rain, that touches every yearning to be growing thing.

You wake to find the lawn has had its birthday fling.

You'll be enraptured over Violets and the joy the jonquils bring.

And marvel at the blueness of the sky, where calling birds have taken wing.

And in the hush that follows, you'll give thanks, for everything.

But most of all, it's Iris, that you'll think of, for Iris is the Heart of spring.

But whatever you want to call it, Spring fever or Anticipation, it's a nice feeling to have and if you are having visions and dreams of a perfect Iris season then you have it too. I hope so, and may I say I hope all of your dreams for that perfect season become true reality.

I want you to know that I have certainly enjoyed your many wonderful letters relative to my new type catalogue. Due to your appreciation the pages on parentages will be continued and at your request I am continuing the article on Hyberdizing Hints, part two of which will be found in this catalogue. A number of copies of part one are still available and will be mailed to any of you who are newcomers, upon your request.

Once again in closing may I offer you my thanks for your generous patronage and your valued friendship. May your Iris season be better and your heart still happier than before.

Sincerely,

CHET TOMPKINS

TERMS—Cash with order. Check, draft or money order.

POSTAGE PAID—On all orders of \$3.00 or more. With orders for less, add 35c for postage.

SHIPMENT will be made beginning the second week in July, on both Iris and Hemerocallis orders, shipped in rotation as received, unless a specific date is requested.

SUBSTITUTES will not be made unless you send a list of alternates, which will be appreciated in the event we run short of any stock; and all items that do not grow or might prove to be incorrectly labeled will be replaced.

EXTRAS—You may suggest some varieties you would like and if possible we will choose from that list, or perhaps we may send something even better, as our stock of most varieties is good. On orders of \$10.00 or more you may add up to 33⅓ per cent of the value of the order as your extras. There are no discounts on varieties marked NET, but extras will be included from those you suggest.

The American Iris Society

Join the American Iris Society and see the Iris world. (Apologies to the U. S. Navy.) But, it's truer than you think, for the fine quarterly bulletins will take you on vivid "Word Trips" to the doorsteps of Irisarians and through their gardens, in almost every state and country. JOIN NOW! It's easy, just send \$3.50 to THE AMERICAN IRIS SOCIETY, 444 Chestnut Street, Naashville, Tenn.

FOR ANY GENERAL INFORMATION YOU MAY NEED we suggest the new book "The Iris, An Ideal Hardy Perennial," recently published by the American Iris Society. This may be procured directly from them either in heavy paper binding at \$1.50 or permanently bound in cloth for only \$2.50.

Our 1952 Introduction

COLORCADE. (Tompkins 1952) M-L 37 in. A smoothly cut and stylishly formed flower of deep copper orange and rose red smoothly blended into one rich shade of brownish red, very close to the shade called Afghan by the Dictionary of Color. There is a faint over-all flush of blue on the falls and the clean unveined hafts are touched with bright chocolate red on each side of the full yellow beard. Stalks are strong with good branching and nice placement of the blooms.

No. 49-183. Veishea x Bronzed Copper Net \$15.00

COLUMBIA. (Tompkins 1952) M-VL. 36 in. Close to the color plates of Columbia or Bonnie Blue by the Dictionary of Color, this medium blue has even more richness of coloring than either of the plates. Somewhat reminiscent of the old variety Narain, it has the same eyeblinding brilliancy, a quality that is seldom seen in blue iris and we feel that it is truly an advance in this color class. The medium to large flowers have heavy substance, a satiny finish and broad perfectly domed standards and widely rounded flaring falls. A full blue tipped beard adds further richness. Extremely hardy plants with strong excellently branched stalks. Received H. C. award in 1951.

No. 49-51. Sister to Courtesy x (Annabel x Narain) Net \$25.00

DANCING DEB. (Tompkins 1952) M-L. 38 in. A large and exquisitely formed flower of clean light Heliotrope, this has broad ruffled, well domed standards and flaring falls so broad and heavily ruffled that they seem to be one full piece, like a billowy skirt on a whirling, dancing deb. The stalks are tall with excellent branching and perfect placement of each bloom which adds more charm and grace to the dancing airy-like flowers. The substance is heavy and the finish is sleek and sparkling. A pale lemon beard with Heliotrope tip accents the coloring. Its blood should make this a good breeder for a number of color lines such as blends, pinks, blues and whites.

No. 49-191. (Delilah x Seashell Seeding) x Jake Net \$10.00

ESCAPADE. (Tompkins 1952) M-L. 36 in. In Escapade we give you a new and truly charming escape from conventionality. Its beautifully formed,, delightfully frilled flowers are of rich glowing orchid with a broad band of shimmering gold around both standards and falls. One of our own favorites, this has been liked equally well by visitors. A delicate color combination, it nevertheless has a subtle gaiety that seems to endear it to all who see it. It has very heavy substance and a glittering satiny finish with good bloom placement on a well branched stalk.

No. 49-128. Tunisian Gold x Cascade Splendor Net \$20.00

FLAMBOYANCE. (Tompkins 1952). M. 36 in. A truly gigantic iris, this is done in tones of glowing mulberry purple, violet and rose. Though it is a grandchild of Ormohr it has none of the flower characteristics of the Mohrs but does have the heavy, almost leathery substance so typical of these Hybrids. The stalks are extra heavy and strong with normal branching. Flowers are very broad petaled and both standards and falls have a crimped lacy like edge with a delicate ruffling. Beautiful in a garden clump, this also makes a magnificent specimen stalk for the show room.

No. 49-88. (Sonatine x (Veishea x Copper River)) x Mulberry Rose Net \$15.00

WALTZ TIME. (Tompkins 1952) M-L. 38 in. This has large flowers of the same size and form as Dancing Deb and has the same delightful flare and heavy ruffling. As a matter of fact Dancing Deb and Waltz Time are identical in every way except that of coloring. Waltz Time is a self of rich Ivory Cream. Not an off white or an off yellow, but true Ivory cream as in the plates by the Dictionary of Color. Further color depth is added by a full lemon cream beard and a clean haft that is so wide the ruffles rest upon each other. It makes such a fine running mate to Dancing Deb that when we think of one we immediately think of the other. As an arrangement tip, try Waltz Time, Dancing Deb and Love Story together. Already proving a fine parent, this has great possibilities in many lines.

No. 49-169. Buckskin x Golden Spike) x (Shishaldin x Ivory Charm) Net \$10.00

Other 1952 Releases

It is with pleasure that we announce the introduction of the following two originations by Mr. Richard Goodman of Bloomington, Illinois.

ROYAL ERMINE. (R. Goodman 1952) M-L. 42-46 in. A large, very pale cream white that gives a rich Ermine white effect in the garden. The form is excellent with very clean-cut, tailored petals. Standards are perfectly domed and falls are semi-flaring. The petals are free of venations and a rich full beard and pure gold throat add greatly to its beauty. Substance is heavy and the finish is very smooth. Stalks are strong and excellently branched. Most effective in the garden and a sensation in the specimen stalls department Net \$25.00

SPRING MOON. (R. Goodman 1952) E-M. 32 in. This gigantic light yellow was a real sensation in our garden last year and we feel that it will deserve all the praise and attention given it. The flowers have very good form with heavy substance and one of the silkiest finishes we have ever seen. Standards are perfectly domed and the falls flare horizontally. Stalks are strong and widely branched, though at times it has a tendency to throw a Y shaped stalk. However this is no great defect for it produces many buds and there are always a number of flowers in bloom at one time making it one of the most effective clumps we have seen Net \$20.00

Personality Parade of 1952

\$2.00 each. Net

Each of the following new members of the Personality Parade have been studied and checked with extra care and we believe in each of them we are giving you varieties that are outstandingly different in colors and color combinations and that are as fine as anything that has ever been on the Parade. Stock is not as plentiful of these 1952 items as past years introductions and this, plus the great demand for the Paraders as well as increased postal rates has necessitated the increase of price on them to \$2.00. A price which we still believe you will find well worthwhile.

BOLD PAGEANT. (Tompkins 1952) M-L. 40-44 in. A large well formed flower with very broad petals, heavy substance and gleaming finish. A self color identical to the plate called Indian Copper in the Dictionary of Color. There is in reality nothing coppery about it and it is best visualized as a pure light brown. Taken as a color alone it would be rather sombre and dull. However, finished off as it is in this flower there is something about it that makes even a single stalk a commanding sight and it has drawn visitors to it like a magnet and led numbered seedling sales for the past two years. Plants are hardy with tall broad foliage and stalks are very strong with excellent branching.
No. 49-11. (Stardom x Arab Chief) x (Gypsy x Prairie Fire).

BRIGHT BROCADE. (Tompkins 1952) M-L. 38 in. A most unusual combination of colors, this seems to be a real eye catcher. Flowers are quite large with heavy substance and good form. Almost a bicolor, the standards are of rich Tyrian gold with a faint infusion of violet while the falls are deep Petunia violet with a flush of red and gold and a touch of deep gold at the beard. Both standards and falls have a deep lacy or Chantilly like edge of sparkling gold. Strong, well branched stalks.
No. 49-76. Lavender and Gold Lace x Matador.

DAYDREAMER. (Tompkins 1952) M-L. 38 in. This is an exceptionally large flower of very stately appearance. The form is good with broad domed standards and very large round falls. Standards are blended burgandy and brown and the falls are of deep ruby red with a rich infusion of brown and mahogany. Strong well branched stalks with excellent placement make this an ideal garden clump as well as a fine specimen for show purposes.
No. 49-187. Bandit x Rhapsody.

LIVE WIRE. (Tompkins 1952) M-VL. 38 in. A beautifully formed flower with flaring tailored form and clean cut rounded petals. Standards are domed and falls are quite flaring. The color is a deep Garnet red with a heavy infusion of rich copper making it appear to be a self of dark copper red. A later sister to Copper Clad, this is taller with better branching and is one of those varieties that seems to improve in quality and beauty each year.
No. 46-23. Arab Chief x Honeyflow.

MANILA MOON. (Tompkins 1952) M-VL. 38-42 in. A sister seedling to Surrender, this is entirely different in color makeup and has been much in demand by garden visitors, being sought after for both its breeding possibilities and for use in arrangements. The flowers are large, of good form and heavily substanted. Standards are near pure Oyster White and the falls are Chartreuse with a heavy over-all flush of Olive Green. As a parent it should be good for plicatas, light bicolor amoenas, blends and for the much anticipated greens.
No. 49-132. Lamplit Hour x Pink Tower.

Personality Parade Regulars

Any 6 different \$5.00

Any 10 different \$8.00

Except varieties marked Net. \$1.00

- BALLAD.** (Tompkins 1949) M-L 38 in. A medium large flower of excellent form and heavy substance, this is a light pink self of about the shade called baby ribbon pink. Pale lemon beard.
- BANDIT.** (Tompkins 1950) E-ML. 7 in. A large flowered and very broad petaled iris of deep Antique Ruby. The coloring is solid with only a few tiny yellowish venations showing in the throat. A real Top Notch red and a wonderful parents. Net \$1.00.
- COURTESY.** (Tompkins 1950) M. 38 in. A very large and excellently formed flower of pure white with a faint flush of blue at the throat and a heavy blue beard. Net \$1.00.
- FANTASIA.** (Tompkins 1949) M. 36 in. Large ruffled flowers of good form and substance in a blended shade of rich violet, rose and mulberry. Massive and showy.
- FLANDERS.** (Tompkins 1951) M. 38 in. A flaring dark ruby red of large size and fairly heavy substance. Excellent stalks with good branching. Proving to be a good breeder.
- GLOXINIA.** (Tompkins 1951) M. 38 in. A large and excellently formed flower of glistening blue purple. A pale lemon and blue tipped beard adds greatly to its beauty. A husky grower with strong well branched stalks. Excellent as either a pod or pollen parent. Seeds readily to Onco pollen.
- MAGIC MIST.** (Tompkins 1950) E-L. A rich chamois buff with a faint infusion of flesh pink and often touched with pale blue around the beard. Large flowers with broad oval petals and a lustrous sparkling finish.
- MATADOR.** (Tompkins 1949) Sold out for this year.
- MAYAN MAGIC.** (Tompkins 1948) M. 38 in. A luscious blend of coppery orange and pink. Heavily ruffled, especially when fully established. Beautiful in clump form.
- MOON SONG.** (Tompkins 1949) M-L 37 in. A large, well formed flower with broad oval petals, this has good substance with a sleek, lustrous finish. The color is a bright clean orchid that is given depth and life by an undertone of cream and a touch of Moonbeam yellow in the throat.
- PULCHRITUDE.** (Tompkins 1951) M-L 38-40 in. One of the largest Iris we have grown, this huge white is a most impressive Iris with very large broad petals and beautiful form. The flowers have a gleaming velvety finish and a glow of cream lemon throughout the throat seems to add to its coloring, giving it a creamy but luminous quality. Tall, strong stalks with excellent branching. Net \$1.00.
- SALOME.** (Tompkins 1950) M. 38 in. A large, full bodied flower of glowing amber with a rayed overlay of soft orange red. The petals have a crimped and lacy edge.
- SWEET TALK.** (Tompkins 1951) M. 38 in. A large and exquisitely formed flower of luminous lilac with a silvery overlay and cream lemon tone throughout the throat area. Smooth broad petals with very lustrous finish and heavy substance.
- SNOWBLUSH.** (Tompkins 1948) Sold out for this year.
- THE INTRUDER.** (Tompkins 1949) M-L. 40 in. A very dark purple black with a slight tone of blue and a brushing of brown on the haft. Very large flower.
- TORCH SONG.** (Tompkins 1948) Sold out for this year.
- TROUSSEAU.** (Tompkins 1951) Sold out for this year.
- WAR CRY.** (Tompkins 1950) Sold out for this year.
- WHITE WATERS.** (Tompkins 1948) E-M. 38-42 in. Sparkling opaque white with a faint hint of blue throughout. Classically formed flowers on excellently branched stalks. Pods very readily to Onco pollen.

BIRD OF DAWNING. (J. Sass 1944) M. 35 in. A lovely pure shell pink self with pink beard\$ 1.50

BLACK BANNER. (Nicholls 1947) M.L. 38 in. Lovely new iris of deep blue purple, almost black. H. M. 1947 \$1.00

BLACK AND GOLD. (Klein 1943) M. 36 in. Pure gold stands and deep black red falls \$ 1.00

BLACK FOREST. (Schreiner 1945) M.L. 33 in. Rich blue black that is the nearest to true black on the market. A.M. 1948\$ 1.50

BLACK RUBY. (Dolman 1949) E. 36 in. Rich black red shelf with a deep bronze beard. No haft markings mar the beauty of this and a smooth glossy finish adds to its beauty. H. M. 1949 Net \$3.00

BLIZZARD. (Knowl. 1949) E. A large white of very pure coloring, this has broad, heavily ruffled and fluted petals of heavy substance. Excellent branching and many buds. H. M. 1949 Net \$4.50

BLUE VIOLET. (Craig 1949) M. 38 in. Intense color in a thick petaled enamel like finished flower \$4.00

BLUMOHR. (W Marx 1949) E-M. 37 in. A very large, heavily substantanced flower of medium blue. Broad slightly ruffled petals. Typical of the larger oncobreds. H. M. 1949 Net \$10.00

***BRASS BAND.** (Whiting 1949) Very deep orange yellow with heavier orange overlay on the falls. Large bold flowers of fine form and heavy substance. \$2.00

BRIGHT MELODY. (Snyder 1942) M. 36 in. Very smooth flower of rich mulberry coloring. Fine \$ 1.50

***BRIGHT SONG.** (Schroeder 1949) M. 38 in. One of the most vividly colored of all the new orchid pinks. Gleaming red beard. H.M. 1950 \$10.00

BRIGHT WINGS. (C. Schirmer 1948) M. 37 in. Bright rosy pink with flaring form and heavily ruffled petals. Large and very lovely \$ 3.00

BRITANNIA. (Tompkins 1949) M-L. 38 in. A self of rich dark Carmine red, this is a real giant with flowers of heavy substance, beautiful form and a glistening finish. The petals are all very broad and the hafts are free of venations. One of our best varieties, this is a real "Stunner." H. M. 1950 Net \$12.50

- *BRONZE BROCADE.** (Nesmith 1948) M. L. 40 in. A very smooth blend of rich coppery red and tobacco brown with an undertone of deeper brown and a flush of Corinthian purple around the bronzy gold beard. The petals are very broad with heavy substance and both the standards and falls have an edging of dark Kaiser brown. H.M. 1948 \$ 5.00
- BROWN THRASHER.** (Kirk 1941) M. 36 in. A really bright brown that has a metallic like finish. Fine\$ 1.00
- BRYCE CANYON.** (Klein 1944) M. 36 in. A very popular blend of copper brown. A.M. 1947\$ 1.50
- BURGANDY ROSE.** (Hall 1946) M. 36 Large bright rosy wine with broad ruffled petals\$ 2.00
- BURMESE GOLD.** (Whiting 1945) M. 36 in. Brilliant blend of gold and rosy apricot. Many flowers and heavily ruffled\$ 1.00
- BURMESE RUBY.** (Muhl. 1949) M-L. 36 in. A nicely formed flower of medium size. A self of dark ruby red, this has a brilliant orange beard. The finish is gleaming and enamel like. Substance is not extra heavy as the flowers do burn in the sun. However, it is a beautiful color and should prove very fine if planted in semi shade. Small rhizomes and small short foliage. H. C. 1948Net \$5.00
- CADET BLUE.** (Whiting 1949) M. 36 in. A sister to Blue Rythm, this is much deeper in tone but of the same size and form.\$.75
- CAHOKIA.** (Faught 1948) M. 39 in. Superb light blue. Good form with broad round petals. A. M. 1951Net \$10.00
- CALDERILLA.** (DeForest 1944) M. 38 in. A well formed blend of rich terra cotta, gold and brown. Tall well branched stalk.\$1.00
- CAMEROUN.** (Cayeux 1938) M. 38 in. Bright violet purple bicolor of fine form and heavy substance\$ 1.00
- *CAMPANULA.** (Tompkins 1948) M-L. 38 in. A clear self of rich Campanula blue. The full formed, large flowers have very broad petals and the flaring falls are slightly ruffled. Stalks are strong and tall. Foliage is exceptionally nice with very broad, purple based fans\$2.50
- CAMPFIRE GLOW.** (Whiting 1947) M-L. A very clean flower of brilliant Ruby Red with a smooth overlay of light glistening copper. Beautiful and an excellent parent for either reds or blends. H. M. 1947Net \$7.50
- CAPE BON.** (Tompkins 1945) M-L. 38 in. A large flowered blend of rich Arabian red and copper brown. Petals are broad, heavily substandard and the hafts are bright and clean. A massive flower, this has good placement on strong well branched stalks. H.M. 1945\$ 3.50
- CAPISTRANO.** (Tompkins 1947) M. 36 in. A shimmering blend of rose, violet and blue. Smooth finish and good size. Onco origin\$.75
- CAPITOLA.** (Reinelt 1940) E.M. 34 in. Huge red violet seedling of Wm. Mohr. Beautiful and a fine parent.Net \$1.00
- CAPRICCIO.** (DeForest 1945) M. 38 in. A very lovely light bicolor blend with pale golden and cream standards and light golden rose falls. Strong well branched stalks\$1.00
- *CAPTIVATION.** (Tompkins 1949) M. 38 in. A large full formed plicata with rich cream ground and deep orchid edge. The colors of this are very pure and bright. A great favorite with garden visitors the past two years, this is also proving to be a most valuable parent.\$ 4.00
- CAPTAIN FROM CASTILE.** (DeForest 1951) M-L. 38 in. A very bright and beautifully formed new plicata from DeForest, this is done in a ground color of cream and yellow with deep markings of orange red and cinnamonNet \$10.00
- CAPTAIN ROYAL.** (Snyder 1944) M.L. 38 in. A perfectly formed and large sized iris of rich medium blue\$ 1.50
- *CARAVAN.** (Tompkins 1949) M. 38-40 in. A gigantic iris of deep bright mahogany. This has a beautiful semi-flaring form and a lustrous finish. The rich mahogany is infused with a lighter glowing red, giving the flowers the appearance of being fashioned from highly polished oxblood leather. This effect is further heightened by the very smooth, unmarked hafts. An extremely heavy substance enables Caravan to defy almost any kinds of weather\$4.00
- *CARDINALS ROBE.** (Lyell 1949) M. 38 in. A brilliant self of deep magenta purple or reddish wine. The form is excellent and the substance is heavy. All petals are broad and slightly ruffled and the falls are completely free from venations\$6.00
- CAROLINE BURR.** (Smith 1940) M.L. 38 in. Pale cream ivory with a frosty sheen and faint green flush. Tops. A.M. 1942\$.75
- CARLSBAD CAVERNS.** (Wilson 1946) M.L. 36 in. A large ruffled iris of creamy gold. Delightful\$ 1.50
- CASA MORENA.** (DeForest 1943) M. 38 in. Bright chestnut blended with burnt sienna. Large flowers and very showy. A.M. 1946\$ 1.50
- CASCADE SPLENDOR.** (Klein 1945) M. 36 in. Beautiful ruffled blend of light copper and tawny pink. Choice in every way. A.M. 1947\$ 2.00

***CHANSONETTE.** (Tompkins 1948) M. 40 in. A large and delightfully formed flower of rich, pink toned orchid that is enlivened by a faint lemon touch in the throat and a sparking frosty finish. The heavily substanted flowers have full domed standards and broad flaring falls with fluted tips. Tall, excellently branched stalks\$ 6.00

***CHANTILLY.** (Hall 1945) M. 35 in. Light orchid pink with a heavily ruffled and crimped edge. A.M. 1947\$ 2.00

CHARLIE GERSDORFF. (Lapham 1948) M. 36 in. Rich glowing red with faint copper tone. Very bright.....Net \$2.00

CHAR-MAIZE. (Lyon 1949) M. 38 in. A wide, full formed flower of rich yellow with smooth undertone of chartreuse. Unusual and very lovely. H. M. 1949.Net \$10.00

***CHERIE.** (Hall 1947) M. 36 in. One of the best of the Hall pinks, this has good form and broad heavily substanted petals. The color is a very deep and smooth shell pink, which is heightened by the full red beard. Dykes Medal 1952...\$12.00

CHICORY BLUE. (Douglas 1942) M. 38 in. A large broad petaled blue that lives up to its name\$1.00

CHIFFON PINK. (DeForest 1948) M. 38 in. Lovely flaring shell pink with a full tangerine beard\$2.00

CHIVALRY. (Wills 1944) M. 36 in. The 1947 Dykes Medal winner. A superb medium blue of broad flaring form with full ruffled petals\$3.00

CHIQUITA (Knowlton 1951) L. 36 in. A new and highly rated near amoena, this is similar in color tones to Louise Blake but has larger, more brilliant flowers and taller, better branched stalks. Flowers are heavily substanted with velvety finish and lovely ruffling. H. M. 1951.Net \$12.00

CHI-YUN. (DeForest 1947) M. 38 in. A large and impressive pure white. The best Snow Flurry seedling we have seen\$2.00

CLEAR SAILING. (DeForest 1950) E-M. Very large, flaring flower of pale lemon yellow with intensified coloring around the edges. Substance is heavy and the finish is sleek and glistening. H. M. 1950Net \$12.00

CLOTH OF GOLD. (Whiting 1945) M. 36 in. Large, well formed flower of brilliant yellow. A real attention getter. A. M. 1950\$1.00

CLOUD CAP. (DeForest 1950) M. 40 in. A very large new pink that measures well over seven inches across. The color is light blossom pink that is set off by a very heavy Tangerine Red beard. The form is good with domed standards and semi-flaring ruffled falls. H. M. 1951.Net \$20.00

CLOUD CASTLE. (Graves 1944) M. 37 in. A broad petaled, heavily ruffled, pale wisteria blue of large size and flaring form. Superb. H. M. 1944\$2.00

COCK PHEASANT. (Whiting 1951) M-L. 34 in. Rich tapestry or garnet red with an overlay of terra cotta on the falls. A very brilliant and glowing iris. The size is medium to large and the substance is heavy and finish velvety..... Net \$10.00

***COLOR CARNIVAL.** (DeForest 1949) M. 37 in. Something different in the shell pinks; this really drew the crowds in our garden last year. Larger and deeper in color than Spindrift and with a bright splash of purple on the falls around a full red beard. H. M. 1950\$7.50

COLOR SERGEANT. (H. F. Hall 1948) M-L. A brilliant new blended red of excellent form. Standards are blended malaga and antique ruby while the falls are velvety ruby with a ruffled edge of malaga. H. C. 1947\$4.50
H. C. 1947Net \$4.50

***COLOSSAL.** (Marx 1947) E-M. 36 in. A pattern but done in a slightly deeper tone of velvet blue.\$1.00

CONGO PRINCESS. (Whiting 1947) M. 36 in. A very rich bicolor of deep plum purple with glossy finish.....\$.75

CONGRES. (Cay. 1924) E-M. 30 in. A dark wine purple hybrid that is not too well known. The flowers are of medium size and have fine form and very heavy substance. Some typical Onco veining can be seen in the flower and there is a tiny attempt at a signal patch at the tip of the beard. One of the easiest of the Oncoes to pod. We have numerous seedlings to bloom from it this year\$1.00

CONSOLATION. (Tompkins 1950) M. 38 in. The largest iris we have so far produced. This is a truly gigantic flower of light medium or powder blue. The stalks and branching are quite in keeping with its size as is its substance. The form is unusual and very lovely. A great favorite with visitors, this is also one of our own personal favorites..... Net \$7.00

COPPER CANYON. (Tompkins 1950) M-L. 38 in. A deep copper, even to the beard, the basic color of this is mustard brown. Its brilliance and carrying power is derived from a lacquerlike overtone of bright molten copper. Of large size and heavy substance, the flowers have a beautiful flaring form and broad round petals. Strong, widely branched stalks Sold out.

COPPERCLAD. (Tompkins 1949) M. 36 in. A pure orange copper self of heavy substance, this has a beautifully sleek finish with no venations. The flowers are medium large with broad round petals and flaring falls. Rather closely branched. Very difficult to pod but proving an excellent pollen parent.\$1.50

- COPPER RIVER.** (DeForest 1945) M. 38 in. A flaring, slightly ruffled flower of tan with a bright copper overlay ---- \$1.50
- CORITICA.** (H. P. Sass 1942) M. 36 in. A beautiful plicata of soft yellow with dainty edge of cinnamon brown ---- \$.75
- CORNFLOWER.** (Whiting 1948) M-L. 38 in. Classically formed, rich cornflower blue. You can't go wrong on this one. ---- \$1.50
- CORONADO.** (Tompkins 145) M. 36 in. An intense yellow of large size with very broad petals and flaring horizontal falls. An extra heavy beard accents its richness. One of the most heavily substantanced iris we have grown ---- \$.75
- CORPORAL MARY.** (Graves 1949) M. 38 in. A very large, broad petaled flower of deep cream with a white area in the center of the falls. Substance is heavy and the flowers have a crisp sparkling finish. Excellent form and fine placement on excellently branched stalks ---- Net \$6.50
- *COURTIER** (Hall 1947) M. 30 in. Perhaps the deepest in color of the Hall pinks. Good form, substance and a full tangerine beard ---- \$3.50
- CREVETTE.** (Whiting 1951) M. 34 in. A self of rich creamy shrimp pink with a bright tangerine beard. A lovely and appealing addition to the pink class. Plants grow well and increase rapidly. Net \$4.00
- CRITERION.** (Douglas 1951) M-L. 38 in. Very large flowers of excellent form and heavy substance. Standards are white with faint veins of very pale blue. Falls are clean, rich blue violet with a distinct edge of white. Probably the best of the new Amoenas, this is undoubtedly the best for breeding as it sets pods readily and has very potent pollen ---- Net \$18.50
- CUBAN CARNIVAL.** (Sass 1948) M. 36 in. Somewhat similar to Moonlit Sea in pattern, this is rich cream with a heavy wash and striation of deep violet with a heavy yellow throat. Unusual and very lovely. ---- \$2.50
- DAMASCUS.** (Tompkins 1945) M. 38 in. A large, broad petaled flower of clear Spanish yellow that has a heavy overlay of brilliant orange copper on the falls. ---- \$1.00
- *DANUBE WAVE.** (Schreiner 1947) M. 38 in. Bright, clear Marine blue of lovely flaring form. Stands out in any planting ---- \$3.50
- DANCING WATERS.** (Sass 1950) M. 36-38 in. A very fine new plicata of purest white and brilliant blue. Large size with lovely flaring form and broad petals. Excellent stalks and branching ---- \$10.00
- *DARK FIRE.** (Tompkins 1949) M-VL. 38-40 in. Brilliant and imposing, this is a most difficult iris to describe. A near self of black red, it has a slight infusion of brown and a glowing undertone of deep vermillion that gives it a fiery, smoldering appearance. The flowers have good form and substance; and are well placed on strong, nicely branched stalks. ---- \$8.00
- DARK MELODY.** (Sass 1951) M-L. 36 in. One of the most appealing and novel new plicatas we have seen. Ground color is cream and lemon with the very heavy border being of dark purple. The flecking of the border is carried well into the falls and throughout the standards. A different and very outstanding iris ---- Net \$7.50
- DAWN REFLECTION.** (Stevens 1948) M. 38 in. A gigantic plicata of rich Ivory with a flush of lilac in the standards and a dainty stitched border of rose pink around the falls. Said to be one of Mrs. Stevens best introductions ---- Net \$12.00
- DAYBREAK.** (Klein 1941) M. 38 in. A luscious golden pink of huge size and classic form. One of the very best. Tied for Dykes 1946. ---- \$1.00
- DECEMBER ROYALTY.** (Austin 1951) E-M. 36 in. A beautifully formed flower of deep Royal Purple. Standards are beautifully domed and falls are semi-flaring. Substance is heavy and the finish is sleek and glistening. A welcome addition as it blooms again in the fall ---- Net \$12.00
- DECORATOR.** (Snyder 1946) M. 36 in. Blended red brown and purple of extra large size and with a gleaming leathery finish. ---- \$.75
- *DEEP NIGHT.** (Corey 1947) M. 36 in. A very impressive flower of deep Mulberry purple that is given great brilliance and life by a rich gold beard and bronze flushed haft. The flower is beautifully formed and very large. H. M. 1948 ---- \$2.00
- *DESERT SONG.** (Fay 1946) M. 39 in. Rich heavily substantanced cream with broad ruffled petals. One of the best in this class and should be unexcelled as a parent. A. M. 1949 ---- \$3.00
- DINAH SHORE.** (Schreiner-Wms. 1945) M. 36-38 in. Deep tan with bright coppery orange overlay. Appears to be a bright orange self. ---- \$1.00
- DISPLAY.** (Grant 1942) M-L. 35 in. A glowing, smooth red that always proves to be "better than you think." H. M. 1942. ---- \$1.00
- DISTANCE.** (Cook 1946) M. 35 in. Large medium blue, particularly clean in coloring and excellent form. A. M. 1949. ---- \$3.00
- DOWN EAST.** (Tobie 1943) E-M. 38 in. A large glowing prune purple of full form with rounded petals. A fine dark one. ---- \$1.00
- DREAM ALONG.** (Muhl. 1950) M-L. 40 in. A large and very smoothly finished blend of deep pink tones, this has large, heavily substantanced and beautifully formed and finished flowers. ---- \$2.00

- DREAMCASTLE.** (Cook 1943) M. 36 in. The best orchid pink. Large flowers with extra broad petals. Very lovely. A. M. 1948 Net \$3.00
- DREAM GIRL.** (Hall 1944) M. 32 in. Deep flamingo pink with a bright red beard. A fine parent that will produce almost every shade of pink \$1.50
- DREAMLAND.** (Snyder 1945) M. 38 in. Deep hollyhock red. Very large flowers with long, full petals \$1.50
- DRUM MAJOR.** (G. Douglas 1947) M-L. 38 in. A very large, flaring flower of excellent form and finish. The falls are of deep ox-blood red with a border of lighter red that is the same color as the standards. Lighter red styles, a clean dark haft and bronze beard add to its beauty. Substance is heavy and the flowers do not burn or bleach in the hottest sun. Net \$4.00
- DUSKY NIGHT.** (Whiting 1948) M. 36 in. A very deep blue violet with a few white veins at the throat. A fine addition to the near black class. \$.75
- EASTER BONNET.** (Maxwell 1944) E-M. 38 in. Bright blush pink with a brilliant gold border. A real beauty. H. M. 1946. \$1.00
- EASTER GOLD.** (Essig 1946) M-L. 38 in. A very large, brilliant yellow with a silken finish. \$1.00
- *EBONY ECHO.** (Tompkins 1948) M-L. 36 in. One of our most popular introductions. The flowers are large and have very broad, ruffled petals with horizontal falls. In bud this appears to be a shiny black but open flowers are a deep carmine with a satiny black overlay. H. M. 1949 \$10.00
- EBONY ISLE.** (DeForest 1949) M. 34 in. A very smooth flower of deep black red. Wonderful finish and excellent form. H. M. 1950 Net \$10.00
- ELMOHR.** (Loomis 1942) M. 36 in. A huge hybrid of rich mulberry purple. A real sensation. Dykes Medal 1945 \$1.00
- EL MOROCCO.** (Becherer 1945) M. 36 in. Creamy pink of unusual richness, with a crepe like texture. Large and lovely. \$.75
- EL PASO.** (Klein. 1949) M. 32 in. A seedling of Tobacco Road, this is a much larger flower than is a brighter, more golden brown than its parent. It has flaring form, heavy substance and a lustrous finish. H. M. 1950 Net \$3.50
- ENVOY.** (DeForest 1949) M. 34 in. Different and very beautiful new flower in the black bicolor class. Standards glow with rich red tones and the falls are like black velvet. A top notch iris Net \$9.00
- *EVENSONG.** (Frazee 1950) M. 36 in. A new lilac blue hybrid that we think is exceptionally lovely. From N. J. Thomas, this shows its Mohr ancestry quite plainly. The flowers are large with very broad petals and a rich metallic finish. H. M. 1950 Net \$8.00
- EVENGLOW.** (Clev 1948) M. 37 in. This rosy lavender iris is one of the largest we have ever seen. Good substance and fine form. Showy. \$3.50
- EXTRAVAGANZA.** (Douglas 1944) M-L. 38 in. A new and choice amoena. Stands white and falls of deep plum red flushed purple. A. M. 1947 \$2.00
- *FABULOUS KATE.** (Muhl. 1950) M. 36 in. A very large yellow of smooth finish. The standards are somewhat open, but in this case, that does not seem to be a fault as the falls have a flaring, fluted dip that somehow seems to be in perfect proportion to the position of the standards \$7.50
- *FAIR DAY.** (McKee 1949) M. 37 in. A broad petaled flower of semi-flaring form that is a near yellow and white amoena. H. M. 1949 \$5.00
- FALL DAYS.** (Smith 1947) M. 43 in. Brilliant bi-color of deep gold and bright old rose. Coppery sheen. H.M. 1947 \$7.50
- *FANTASY.** (Hall 1947) M. 36 in. Bright flamingo pink blended orchid with a bright red beard. Outstanding. A. M. 1949) \$7.50
- FIESTA.** (White 1936) M. 36 in. Nicely formed coppery apricot with a bright orange rose overlay \$.75
- FIRECRACKER.** (Hal 1943) M. 34 in. One of the most brilliant plicatas. Bright Burgundy red and glowing yellow. H.M. 1943 \$2.00
- *FIRE DANCE.** (Fay 1947) M. 38 in. A very brilliant plicata of deep buff with heavy markings of Burgundy red. Very large, broad petaled flowers of excellent rounded form. H.M. 1947 \$5.00
- FIRE OPAL.** (Lyell 1948) M-L. 40 in. One of the most brilliant blends of its color that we have ever seen. Rich pink, golden amber and faint orchid tones are so subtly blended that the flower seems to be fashioned of the gem from which it derived its name. \$2.50
- FLAMELY.** (Cook 1943) M. 36 in. A deep glowing red with coppery undertones. Good form and substance and lots of bloom. H. M. 1944 \$.75
- FLORADORA.** (Hall 1947) M. 36 in. Rich flamingo pink with extra bright beard and excellent form \$2.50
- FORTUNES FAVOR.** (DeForest 1944) M. 40 in. An extremely large and flaring tan with a soft lavender overlay \$1.50
- *FLURRY MOHR.** (Rees 1950) E-M. 42 in. A very large flower of deep rich violet purple, From Snow Flurry and Capitola, this carries the usual Mohr characteristics. \$2.50
- FRANCELIA.** (McKee 1944) M. 38 in. Brilliant chrome yellow of silken finish. Broad round petals and semi-flaring form. H. M. 1944 \$1.50

- FRANCONIA.** (Graves 1942) M. 42 in.
Large pure white of good form. Extra
broad falls and a cool sparkling finish.
H. M. 1942 \$2.00
- FRANK PUGLIESE.** (Lapham) M. 38 in.
An extremely bright and fiery new red.
One of the best of the new reds, this has
fine form and finish \$3.00
- *FROST GLINT.** (Whiting 1951) M-L. 34 in.
A cold blue-white of lovely form and ex-
tra heavy substance. Flowers are large
with domed, ruffled standards and wide-
ly flaring, heavily ruffled falls. New
blooms are heavily tinted blue but clear
to white when fully open and each flower
seems to last for days. Flowers are so
large they sometimes cause the stalks to
lean slightly although they are strong
and well branched. H. M. 1951. \$6.00
- GALA FINALE.** (DeForest 1950) E-H. 38
in. A large well formed plicata of rich
yellow, this has such heavy markings of
Indian red that at a distance it appears
to be a glowing red self. Strong, well
branched stalks. H. C. 1949..... Net \$12.00
- GALLANT LADY.** (Whiting 1947) M. 40 in.
Very large, ruffled flowers of smooth
lavender blue. \$.75
- GALLANT LEADER.** (Weisner 1939) V-L.
40 in. A gigantic, deep maroon red of
good form and finish. H.M. 1939..... \$1.00
- GALLANTRY.** (Whiting 1945) M. 38 in.
Large ruffled blue of great brilliance.
Fine form and heavy substance..... \$1.50
- GALWAY BAY.** (Tompkins 1949) M. 37 in.
A large and exquisitely ruffled, clear
light blue. The flowers are semi-flaring
of form with broad petals and a crisp,
gleaming, frost-like finish. Strong stalks
with excellent branching..... Net \$4.00
- GARDEN FLAME.** (H. Sass 1941) M-L. 36
in. Brilliant garnet red of large size and
with no haft marks. Very fine.
A. M. 1943..... \$1.00
- GARDEN GLORY.** (Whiting 1943) M-L.
34 in. The best dark Bordeaux red on
the market. For clarity of color, rich-
ness, form and substance it is unsur-
passed. A. M. 1947..... \$2.00
- GARNET GLOW.** (Sass 1951) M-L. 38 in.
An entirely new color in Iris, this is a
large flower of deep flowing garnet red
with a fiery red beard. The flower has
lovely form with well domed standards
and broad flaring falls. The substance is
heavy and the finish very satiny. Stalks
are strong and very well branched.
Should be a wonderful parent Net \$15.00
- *GAY ORCHID.** (Muhl. 1949) E-M. 36 in.
Large orchid self with smooth finish
and flaring falls. A bright tangerine
beard accents the lovely coloring. De-
lightful. H. M. 1949..... \$5.00
- GEMS OF TOPAZ.** (Wilson 1948) M. 36 in.
A rich blend of tawny gold and topaz.
Shimmering silky finish, good form and
substance. \$3.50
- GENERAL PATTON.** (Klein. 1947) M. 38
in. A solid copper brown self with an
overtone of red brown. Glistening fin-
ish. H. M. 1947 \$4.00
- GILT EDGE.** (Whiting 1941) M. 36 in. A
clear creamy lemon, bordered golden yel-
low on the falls. \$.75
- GLAD TIDINGS.** (Whiting 1947) M-L. 35
in. A very large broad petaled and heav-
ily ruffled flower of light chrome yel-
low. Fine \$2.00
- GLORY.** (Kinish 1947) E-M. 36 in. A ruf-
fled light rich cream of beautiful form.
Highlighted by a sprinkling of bright
gold. Net \$1.50
- GOLDBEATER.** (Klein 1944) M. 36 in.
Large smooth blooms of brilliant chrome
yellow. One of the best for either garden
or show purposes. A. M. 1951..... \$1.00
- *GOLDEN DAYS.** (Smith 1949) M. 32 in. A
large, very brilliant yellow with leather-
like substance. A real eye catcher and a
fine parent \$7.50
- GOLDEN PLOVER.** (De Forest 1950) M. 38
in. Rich buff yellow somewhat deeper
than Chamois. A rather difficult color to
describe and one that is unbelievably
brilliant. Excellent form with heavy sub-
stance. H. M. 1951..... Net \$12.00
- GOLD RUFFLES.** (Muhl. 1947) M. 37 in. A
mammoth light yellow of very fine form
and heavy substance. The broad petals
are delicately ruffled and the falls have
very broad hafts that are slightly veined
darker yellow. Said to be a wonderful
parent for pinks. H. M. 1948 \$3.00
- *GOLD SOVEREIGN.** (Whiting 1949) M. 38
in. A medium sized flower of the most
vivid orange yellow imaginable. Excel-
lent form and heavy substance.
H. M. 1950 \$7.50
- GULF STREAM.** (Fay 1946) E-M. A
beautifully formed flower of rich blue
so heavily infused purple that it appears
to be almost a black. H.M. 1946..... \$2.00
- GOLDEN EAGLE.** (Hall 1942) M. 38 in.
Gigantic flaring yellow of smooth finish.
A beauty and a fine parent for flamingo
pinks as well as for blends and yel-
lows. \$1.00
- GOLDEN FLEECE.** (J. Sass 1940) M. 40 in.
A classic in lemon gold and white. In
this we really have perfection.
A. M. 1942 \$1.00
- GOLDEN MADONNA.** (Essig 1936) E. 38
in. Lemon cream standards and deep
gold edged falls. \$.75
- GOLDEN RUSSET.** (Hall 1946) M. 40 in.
One of the largest in existence, and well
named as to color. H. M. 1947..... \$2.50

- GOLDEN SYMPHONY.** (Horton 1944) L. 38 in. Brilliant yellow standards and clean lavender blue falls with a gold edge. A really fine iris that will undoubtedly become extremely popular when stock becomes more plentiful. H. M. 1950 _____ **Net \$6.00**
- GOOD FORTUNE.** (Michell 1945) M. 38 in. A large, rounded plicata of white and cinnamon pink. Lovely _____ **\$1.00**
- GOOD NEWS.** (Klein 1946) M. 36 in. A superb creation in rich golden brown. Sister to Bryce Canyon and Chamois. H. M. 1947 _____ **\$2.00**
- *GREEN MOHR.** (Muhl. 1951) M-L. 40 in. A seedling from Wm. Mohr and Chosen, this new Mohr hybrid is distinctly different and very lovely. Of about the same size and form as Lady Mohr, it is done in cool tones of pale green and Chartreuse. Tall and fairly well branched. _____ **\$7.50**
- GREEN SHADOWS.** (H. Sass 1946) M. 37 in. Large flowers of deep green gold. Fine _____ **\$1.00**
- GREETINGS.** (Milliken 1945) M. 36 in. Rich brown red with a border of cream tan on the falls. Large and very beautiful _____ **\$1.50**
- GUIDING STAR.** (Tompkins 1951) M. 38 in. A lemon gold self of pure and intense coloring. A self even to the lemon gold beard. An unbelievably brilliant flower for this color. An excellent breeder for several breeding lines _____ **Net \$8.00**
- GYPSY.** (Klein 1944) M-L. 40 in. Coppery gold standards and rich red falls. One of the brightest iris in the garden. H. M. 1945 _____ **\$1.00**
- GYPSY BARON.** (Schreiner 1942) E-M. 40 in. Plicata of white with very heavy markings of dark purple. Unusual. \$.75
- GYPSY ROSE.** (Whiting 1946) M-L. 39 in. A gigantic russet red with copper brushings and a blue blaze on the falls. H. M. 1949 _____ **\$3.00**
- HARRIET THOREAU.** (Cook 1944) M-L. 38 in. Silvery orchid pink of beautiful form and heavy substance. Outstanding. H. M. 1945 _____ **\$.75**
- HARVEST MOON.** (Whiting 1944) M. 36 in. Bright apricot yellow and copper blend of large size and good form. _____ **\$.75**
- *HEATH CREST.** (Whiting 1950) M-L. 40 in. Something different in the pinks, this is an odd shade of Heather or Orchid toned pink with a rich tangerine beard. A most unusual color and one that you will like. The flowers are large, broad petaled and rather oval of form. Finish is like watered silk. _____ **\$3.00**
- *HEIGHO.** (Craig 1949) M. 38 in. Very large and exquisitely lovely hybrid of rich blue. A sister to Hurricane and Peg Dabagh. H. M. 1949 _____ **\$15.00**
- HELEN COLLINGWOOD.** (Smith 1949) M-L. 40 in. A very beautiful and distinctly different neglecta with light lavender standards and brilliant violet purple falls. One of Mr. Smiths best originations. H. M. 1950 _____ **Net \$17.50**
- *HELEN FITZGERALD.** (Thorup 1948) M. 38 in. A huge self of Lobelia Violet. Good form and substance. H. M. 1949. _____ **\$5.00**
- HELEN MCGREGOR.** (Graves 1946) M. 39 in. Pale blue of classic form, this has large size, heavy substance and a smooth finish. Dykes Medal 1949 _____ **\$3.00**
- HELEN MCKENZIE.** (Graves 1950) M. 37 in. Said to be the best of the new whites this is a pure clean flower without any markings and with a pure white beard. Perfectly domed standards and flaring, broad falls. Excellent substance and smooth finish. H. M. 1950 _____ **Net \$18.00**
- HIS EXCELLENCY.** (Smith 19) E-M. 34 in. A rich brown bicolor, somewhat similar to the older Louvois, this is undoubtedly the very best of this color. Very large flowers with broad oval petals. Standards are soft rich red brown and the falls are deep velvety brown with a broad creamy edge _____ **\$5.00**
- HI TIME.** (D. Hall 1950) M. 34 in. A lustrous golden apricot with a full deep tangerine beard. The flowers are of medium size with broad unveined petals. Really "Tops." H. M. 1950 _____ **Net \$8.00**
- HIT PARADE.** (Hall 1947) M. 30 in. Largest of the flamingo pinks. Good form and rich color with a crimped edge to the petals. _____ **\$2.50**
- HONEYFLOW.** (Tompkins 1944) M. 38 in. A large, heavily substanted flower of gleaming Meadowsweet Rose with a smooth brushing of Inca Gold over the haft. Unexcelled for form and a Top Notch parent. H. M. 1946 _____ **\$1.00**
- HONOR BRIGHT.** (DeForest 1951) M. 37 in. A new plicata that really created a sensation wherever it was seen last year. Very large, excellently formed flowers with broad full petals, this is done in soft creamy tones of yellow with a beautiful edging of rich cinnamon gold. One of the best new things we saw last season. H. C. 1951 _____ **Net \$12.00**
- HOOSIER SUNRISE.** (Lamp. 1942) H. 40 in. Bright mauve pink blended with citron gold ad brushed red. Fine _____ **\$.75**
- HURRICANE.** (Craig 1949) M. 37 in. Gigantic hybrid of dark blue with typical Onco veins and brushings. Highly recommended. H. C. 1948 _____ **Net \$12.50**
- IDANHA.** (Klein 1942) E-M. 30 in. A rich bicolor blend of apricot and coppery pink. Good form and heavy substance. _____ **\$.75**
- ILLINOIS.** (Hall 1949) M. 36 in. A very large, ruffled self of rich creamy yellow. Heavy substance and glistening finish. H. M. 1950 _____ **Net \$4.00**

- *ILLINOIS SUNSHINE.** (Faught 1946) M. 37 in. A very large, brilliant yellow. A grand new iris and a good grower. H. M. 1949 \$1.00
- IMPERIAL POMP.** (H. Schirmer 1948) M. 40 in. Deep royal purple of excellent form. The substance is heavy and is has a velvety finish which is free of veinings and other markings. Choice... \$7.50
- IVORY PETALS.** (Sass 1952) M-L. 38 in. A very new and exquisite lovely iris in an entirely new color. The large well formed flowers have very broad rounded petals of good substance and velvety finish and are done in a rich shade of smoky ivory with an undertone of pale chartreuse. Distinct Net \$10.00
- INDIANA NIGHT.** (Cook 1942) M. 38 in. Large deep midnight purple. The best of Mr. Cook's Sable seedlings. A. M. 1944 \$1.50
- INDIANA SUNSET.** (Lapham 1942) M. 38 in. A large blend of pink, apricot and lavender. Very bright \$.75
- INDIAN RED.** (H. F. Hall 1949) M. 36 in. A very brilliant new iris in the bicolor class. Standards are coppery rose. Falls are bright Pompeian red bordered with a ruffle of light pecan brown. We have not bloomed this yet but from what we have heard it must be very fine. Net \$5.00
- INNOVATION.** (Hall 1945) M. 36 in. Large creamy yellow plicata with a neat edging of deep rose. Very good H. M. 1947. \$.75
- INSPIRATION.** (Stevens 1937) E-M. 38 in. A very large blend of rich mulberry purple. Much in demand Net \$1.00
- INTERMEZZO.** (Tompkins 1944) M-L. 38 in. A large, ruffled flower of flaring form, done in rich Petunia violet with a touch of rich brown over the haft. Blue tipped beard. Part Onco. \$.75
- ISABEL LUEBEN.** (Luebben 1948) M. 39 in. Deep golden yellow of very large size and rounded form \$1.00
- IVORY CHARM.** (Whiting 1947) E-M. A beautifully formed flower of pure ivory with a gold throat. Luscious and exciting. \$.75
- JANE PHILLIPS.** (Graves 1950) M. 38 in. This seedling from the famous Helen McGregor is much the same in form and size but is of a deeper, richer blue. Excellent form and substance. H. M. 1950. Net \$15.00
- JASMINE.** (Grant 1944) M. 40 in. Clear golden yellow of excellent form. A fine iris and one whose popularity is just beginning to really grow. H. M. 1944 \$1.00
- JERICHO.** (McKee 1950) M. 38 in. A gigantic new orange yellow, this is unusually rich and brilliant. Form is excellent and the substance is very heavy. Strong, exceptionally well branched stalks. H. M. 1950 Net \$10.00
- JASPER AGATE.** (Williams 1943) M. 34 in. Very brilliant brown red with rather small flowers. Produces small rhizomes. H. M. 1944 \$1.00
- JOSEPHS MANTLE.** (Craig 1949) M. 38 in. An immense plicata with a ground of rich buff lightly washed and striated red brown and with a heavy border of red brown around the falls. Unusual and very lovely. \$5.00
- JULIET.** (Klein 1946) M. 38 in. Very brilliant copper orange with clear salmon shadings. Outstanding. H.M. 1947..... \$2.00
- KATHERINE FAY.** (Fay 1945) M. 36 in. Very large and well formed white of great popularity. A. M. 1947..... \$1.00
- KATHERINE LARMON.** (Graves 1942) M. 38 in. Bright blended bicolor of honey yellow and gold with a flush of mauve around the beard. \$.75
- KATY.** (Smith 1945) M. 38 in. A very large light yellow with lots of substance and good form. Different \$1.00
- *KWILSENA.** (Tompkins 1951) M. 38 in. A rich chocolate, or copper brown, blended with red to form a brilliant red brown self. Very smooth and rich. The form is excellent with round tailored petals and heavy substance. Stalks are strong and well branched. Proving to be a fine breeder \$20.00
- KINGS JESTER.** (Stevens 1948) M. 38 in. Another new plicata, this has a silvery white ground with a complete wash or striation of rosy maroon. One of the loveliest and most unusual of the new plicatas Net \$2.50
- KOREA.** (Whiting 1948) M. 37 in. A large semi-flaring flower of soft golden amber slightly flushed rose. Broad round petals and smooth finish. \$3.00
- LADY ALBRIGHT.** (Muhl. 1950) M-L. 36 in. A brilliant new blend. Standards are rich tobacco gold and the falls are rosy violet flushed blue. The hafts are of smooth tobacco gold and an edging of the same color extends completely around the falls. Stalks are strong and well branched. H. M. 1950 Net \$12.00
- LADY BOSCAWEN.** (Graves 1946) M. 42 in. Probably the best pure white on the market. Superb and a rampant grower. A. M. 1948 \$2.50
- *LADY LOUISE.** (Graves 1947) M. 36 in. A huge ruffled flower with bright buff standards and falls of gleaming white with a buff edge. Fine. H.M. 1947.... \$5.50
- LADY MOHR.** (Salb. 1944) E-M. 38 in. Mammoth hybrid of excellent form. Standards are olive white and the falls are Chartreuse with a purple signal patch at the beard. A. M. 1946 \$1.00
- *LADY MOON.** (Whiting 1950) M. 36 in. A cold white self with a white beard. The flowers are large, well formed and heavily substantiated \$4.00

- LADY OF SHALOTT.** (Schreiner 1942) M. 36 in. A lovely plicata of cream white with delicate edge of heather rose. \$.75
- LA GOLONDRINA.** (Tompkins 1946) M-L. 38-40 in. A large and stylishly formed flower of Royal Purple. Substance is heavy and finish satiny. The well domed standards and the broad, semi-flaring falls are slightly ruffled, giving an airy grace to the blooms which are well placed on tall, strong, widely branched stalks. \$2.50
- LAKE BREEZE.** (Fay 1945) M. 38 in. A flaring, nicely ruffled flower of clean, light wisteria blue. Very lovely. H. M. 1945 \$1.00
- LAKE GEORGE.** (Smith 1945) M-L. 38 in. A large flaring blue of very rich, true coloring. Fine. H. M. 1945 \$1.00
- LAKE SHANNON.** (DeForest 1945) M. 36 in. Exquisitely formed and very bright blue with a network of deeper coloring. H. M. 1946 \$2.00
- LAMPLIGHT.** (Schreiner 1944) M. 34 in. Glowing yellow and buff blend \$2.00
- *LAMPLIT HOUR.** (Tompkins 1947) M. 38 in. A really different iris is this new break in the bicolor class. Standards white flushed cream at the base and falls of soft clear yellow. Good form and substance \$2.00
- LATE SUN.** (DeForest 1940) M-L. 42 in. A massive and bright golden yellow with a deep red gold flush. Brilliant. H. M. 1942. \$.75
- *LAUREL HILL.** (Plough 1949) M. 38 in. Another Mohr hybrid of excellent form. The petals are broad and round with both standards and falls being an even shade of rosy lavender slightly veined deeper red. \$4.00
- LAVENDER AND GOLD LACE.** (Whiting 1946) M. 38 in. A lovely bicolor blend with standards of yellow flushed lavender and falls of deep lavender edged gold. The petals are heavily fluted and lacy. \$1.00
- LEADING LADY.** (Lyell 1949) M. 38 in. A large, ruffled and very broad petaled flower of rich cream heavily edged gold. One of the best in its class. H. M. 1950 Net \$5.00
- LELA DIXON.** (Douglas 1949) E. 36 in. A seedling of Blue Shimmer, this has broad rounded petals of purest white with a deep border of very bright clean blue. A hardy and welcome addition to the blue plicata class. Strong well branched stalks Net \$5.50
- LIDICE.** (Tompkins 1945) E-M. 36 in. A deep, glowing Dahlia-Carmine with an edge of bright Heather around the falls. A clean, rich flower of heavy substance and velvety finish \$.75
- LIGHTS ON.** (Lapham 1946) M. 36 in. A fine new red of great brilliance. H. M. 1946 \$3.00
- L'LUVIA D'ORA.** (DeForest 1942) E. 36 in. Full globular flower of clear gleaming apricot orange. Fine \$1.00
- L. MERTON GAGE.** (Lapham 1942) M. 40 in. Rich daphne pink of good size and broad round petals. Lovely \$.75
- *LINDORA.** (Sass 1950) M. 37 in. New and different! Standards are deep orange yellow and the falls are pure white with a wide border of the same color as the standards. Flowers are large, beautifully formed and heavily subenced \$10.00
- LORD DONGAN.** (Smith 1940) M. 37 in. Large, rich silky purple bicolor. Fine form and finish. H. M. 1940 \$1.00
- LORI MAY.** (DeForest 1941) M. 34 in. Large rich rose pink with slightly deeper shadings on the broad full falls \$.75
- *LODESTONE.** (Whiting 1950) E-M. 32 in. A very deep chrome yellow with deeper orange overlay on the falls. A sister to Gold Sovereign, this is larger and deeper in tone. Proving to be an excellent parent for reds \$2.50
- LOTHARIO.** (Schreiner 1942) M-L. 38 in. A fine new bicolor with standards of rich blue and velvety purple falls. Good substance and flaring form. H. M. 1945 \$1.00
- LOUISE BLAKE.** (Smith 1943) M. 34 in. Another bicolor with standards of clear pale blue and rich ultramarine blue falls. A. M. 1947 \$1.50
- LOVE STORY.** (Mrs. J. A. Sapp 1949) M. 37 in. Love Story is a self of rich flamingo pink with a full bright tangerine beard. The flowers are large heavily subenced and the broad petals have a light frill to their edges. The color is particularly clean with no lavender or apricot in its makeup. Plants are strong with tall well branched stalks and an abundance of perfectly placed blooms. Many judges have put Love Story at the top of the pinks in their estimation. H. M. 1950 Net \$10.00
- MAGIC CARPET.** (Schreiner 1942) M-L. 35 in. The largest plicata we have seen. Rich buff with rose markings \$.75
- MADAME MOHR.** (Betcherer 1951) M. 40 in. A seedling from Morera, this is a beautifully formed flower of powder blue with rich gold inlay at the throat. Deep gold beard Net \$7.50
- MARATHON.** (Whiting 1948) M-L. 38 in. A very rich blend of apricot, golden buff and orange. Somewhat similar to Mellowglow, but a better grower and slightly more brilliant in its coloring \$2.50
- MAIDEN BLUSH.** (Hall 1943) M. 36 in. A very large apricot copper flower of great brilliance. Fine \$.75
- MANYUSYA.** (Sass 1944) M. 34 in. A larger, brighter and more heavily ruffled Noweta. Very lovely. H. M. 1944 \$.75

- *MAPLE FLAME.** (Whiting 1940) M-L. 36 in. A new blended bicolor. Stands are of rich gold lightly flushed cardinal red. Falls are the same shade of gold with a very smooth overlay of darker cardinal red except at the haft. Very brilliant. _____ \$6.00
- MARIMBA.** (DeForest 1943) M. 38 in. Very large flaring copper tan with cinnamon brown flush _____ \$.75
- MAROON DAMASK.** (Klein 1946) M. 38 in. A very rich, dark maroon self with an Aztec copper undertone. Full ruffled flowers of good form _____ \$1.00
- MARY VERNON.** (McKee 1942) M. 38 in. Variegata of rich yellow and bright ruby red. Fine form and good substance in a large flower. A. M. 1945 _____ \$1.50
- MASKED BALL.** (Buss 1949) M. 32 in. Lovely new plicata that appears at a distance to be a reverse amoena. Standards are very heavily colored deep blue on white and the falls are snow white with a narrow border of blue. Blue tipped beard _____ Net \$7.50
- MASTER CHARLES.** (Wmsn. 1943) M. 38 in. A deep glowing mulberry purple without any haft veinings and with fine form and rich velvety finish. A. M. 1946 _____ \$1.00
- MATTIE GATES.** (Sass 1946) M. 36 in. Very large pure white with a border of glistening lemon gold. Luscious. A. M. 1950 _____ \$7.50
- MELODIST.** (DeForest 1946) M. 38 in. Gleaming henna and golden brown. Large flowers of flaring form. A stunner. H. M. 1947 _____ \$2.50
- MELODY LACE.** (Muhl. 1946) M. 35 in. This lovely plicata was a favorite with all garden visitors last year. The flowers are icy white with a central glow of cream and a dainty edge of rosy pink. Beautiful form _____ \$.75
- MELODY LANE.** (Hall 1949) E-M. A large golden apricot with a rich glistening finish. Probably from the pink lines, this should be an excellent parent for any of that type. H. M. 1950 _____ Net \$7.50
- MEXIA.** (Whiting 1947) E-M. 38 in. A light pink blend of great beauty, this is a sister to Tea Rose and Three Oaks. _____ \$.75
- *MEXICAN FIESTA.** (Lyell 1949) M-L. 40 in. This new variegata is one of the most brilliant iris in its class. Standards are vivid orange yellow with golden glints and falls are deep orange with a complete overlay of brilliant Pompeian red. A coppery pattern around the full golden beard gives added life and light. Strong stalks with good branching \$7.50
- MEXICO.** (Klein 1943) M. 36 in. A massive bitone of great beauty. Standards of rich amber and falls of glowing red brown edged amber. H. M. 1944 _____ \$1.50
- MICHAEL.** (Norton 1946) M. 37 in. A beauty in blended tones of rose and pink with deep golden beard. Good form and substance. _____ \$1.00
- MICHAEL BARTON.** (Tompkins 1947) M. 38 in. This is a smooth blend of Carmine, Magenta and Hollyhock red. The flowers are large with very broad rounded petals and flaring form. Hafts are free of veins and are a deep chocolate red that blends smoothly onto the falls. The substance is heavy and the finish very velvety. H. C. 1945 _____ Net \$3.50
- MINNIE COLQUITT.** (H. Sass 1942) M. 36 in. A beautiful and very popular plicata. Snow white with bright purple stitching. A. M. 1945 _____ \$1.00
- MIOBELLE.** (McKee 1945) L. 40 in. A large, flaring blend of rose with an orange undertone. Very showy. H. M. 1945 _____ \$1.00

- *PEG DABAGH.** (Craig 1948) E-M. 38 in. Rich violet blue oncobred of large size and perfect form. Exquisitely lovely. H. M. 1948 \$7.50
- PENN CHARTER.** (H. F. Hall 1948) L. 38 in. A brilliant yellow self of flaring form and glistening finish. The standards are well domed and the falls are held nearly horizontal. A beauty Net \$4.00
- PHRADIE WELLS.** (Glev. 1950) M. 38-40 in. A luscious blend of rich apricot and gold. Flowers are large and nicely formed with heavy substance and velvety finish. \$8.00
- PHOEBE.** (Douglas 1941) M-L. 38 in. Pale cream, heavily flushed Javel green. Lovely ruffled form \$1.00
- *PIERRE MENARD.** (Faught 1948) M. 38 in. A sister seedling of Cahokia, this is a deeper and much richer blue. Lovely flaring form. Excellent. A.M. 1950 \$10.00
- *PINK BOUNTIFUL.** (Cook 1949) M. 40 in. This is probably tops in the Orchid pink class. Large perfectly formed flowers with broad petals; smooth satiny texture and heavy substance. Fine. \$6.00
- PINK CAMEO.** (Fay 1946) M. 38 in. A smoothly tailored and deep toned shell pink. A splendid iris and a very popular one. A. M. 1948 \$2.50
- *PINK FORMAL.** (Muhl. 1949) E-M-L. A large, broad petaled and full formed flower of deep flamingo pink with a full red beard. A. M. 1951 \$15.00
- PINK LACE.** (Sass 1947) M. 36 in. A medium sized and round petaled flower of smooth seashell pink with a light tangerine beard \$1.50
- PINK REFLECTION.** (Cook 1942) L. 36 in. A pale, ethereal looking pink of excellent form. A. M. 1944 \$1.00
- *PINK SAILS.** (Sass 1950) M. 36 in. A flaring, broad petaled dark pink self with deep tangerine beard. Excellent stalks and branching \$10.00
- *PINK SALMON.** (Muhl. 1948) E-M. A large, flaring salmon pink with a deep tangerine beard. More colorful than most others of this range \$4.00
- PINK TALCUM.** (Buss 1949) M. L. Almost the same rich coloring but more than twice the size of Flora Zenor, this has fine form and excellent substance. \$4.00
- PINK TOWER.** (Muhl. 1948) E-M. A very large, pale shell pink of excellent form and very broad petals. A sister to Pink Formal \$4.00
- PINK PLUME.** (Schreiner 1951) M. 36 in. A clean orchid pink of excellent form, this is a smooth self of the coloring seen in Dreamcastle. The best of this class we have seen. Net \$7.50
- *PINK SENSATION.** (Hall 1948) M. 38 in. A deep pink of good size, excellent form and heavy substance, this probably rates as the number one pink at the present time. H. M. 1950 \$10.00

- *PINNACLE.** (Stevens 1949) M. 38 in. Another white and yellow amoena this has broad petals and a nice oval form. Standards are white and the falls are pale yellow. A. M. 1951 **\$10.00**
- PIRATE KING.** (Whiting 1951) L. 34 in. A gigantic flower of glistening blue purple that leans definitely to the black side. Standards are domed and the falls are very flaring. A very smooth and clean flower that is free of veins. A touch of brown on the haft and a blue beard adds to its beauty **Net \$4.00**
- PORT WINE.** (Sass 1950) M. 38 in. A large and beautifully formed plicata with a white ground heavily marked and bordered deep red purple. H.M. '50. **Net \$10.00**
- PLUM PRETTY.** (DeForest 1949) M. 33-36 in. A very smooth flower of dusty blue plum or grape purple. Very tailored form with wide flaring falls and well domed standards **Net \$7.00**
- PRAIRIE FIRE.** (Tompkins 1946) M-L. 38 in. A very brilliant flame red and copper blend. Heavily substanded, fluted petals and flaring form. Strong stalks with excellent branching. **\$1.00**
- PRAIRIE SUNSET.** (H. Sass 1939) M. 36 in. Rich blend of soft sunset color. Dykes Medal winner of 1943 **\$1.00**
- PRECIOUS.** (Mitchell 1945) 40 in. A heavily striated and speckled plicata of cream and apricot **\$1.00**
- PREMIER PEACH.** (Hall 1946) M. 36 in. Rich salmon-peach of good form and substance. Tangerine beard. H. M. 1946 **\$2.50**
- PRETTY QUADROON.** (Klein 1949) M. 37 in. A large and broad petaled flower of metallic brown and copper. Smooth, gleaming finish. A. M. 1950 **Net \$10.00**
- PRESENT.** (White 1941) E-M. 36 in. A very large and exquisite Oncobred. Silvery lilac ground with orchid veinings and rose signal patch **\$1.50**
- PRISCILLA.** (Whiting 1942) M. 34 in. A top notch iris of real pure white. A. M. 1947 **\$.75**
- *PURPLE FLASH.** (Lyell 1951) M. 44 in. A large, beautifully tailored flower of rich magenta purple. The heavily substanded flowers have broad rounded petals and a glistening finish. Stalks are strong and excellently branched. **\$7.50**
- PURPLE MOOR.** (Lapham 1947) M. 38 in. A deep velvety purple quite similar to Master Charles, but larger **Net \$3.00**
- QUECHEE.** (Knowlton 1950) M. 35 in. Lovely rounded flowers of deep garnet red. Substance is heavy and the finish is satiny. Does not burn or fade. H. M. 1950 **Net \$8.00**
- *RADIATION.** (Hall 1948) M. 34 in. In my opinion this is the finest iris Mr. Hall has introduced. It is very large with broad petals and beautiful flaring form. In color it is deep pink faintly tinted orchid with a slight gold throat and fiery red beard. Really magnificent. A. M. 1950 **\$10.00**
- RASPBERRY RIBBON.** (Schreiner 1951) E-M. 35 in. A new plicata of beautiful ruffled form. this has a pure white ground with a heavy infusion of bright violet in the standards and a deep border of the same color around the falls. Heavy substance and smooth finish. Stalks are strong and well branched. H. C. 1950 **Net \$12.00**
- *RAINBOW ROOM.** (Sass 1946) M-L. 36 in. A beautiful blend in gold, tan and lilac. Standards are pale yellow flushed soft copper and tinted lilac. Falls are deep lilac with a border of coppery yellow and a blue flush at the tip of the beard. Beautiful. A. M. 1951 **\$7.00**
- RAJAH BROOKE.** (Norton 1946) M. 38 in. A brilliant variegata of clean coloring. Standards bright topaz and falls of glowing red. H. M. 1946 **\$1.35**
- RANGER.** (Klein 1943) M-L. 35 in. Velvety, nearly-crimson self of semi-flaring ofrm. A fine red. A. M. 1946 **\$1.50**
- RARE MARBLE.** (Muhl. 1947) M. 37 in. Brilliant red and yellow plicata. A top notcher in this color **\$2.00**
- RED AMBER.** (Loomis 1942) M. 38 in. A rich, medium rose with a glowing metallic finish. Excellent form and a well branched stalk **\$1.00**
- RED MAJESTY.** (Douglas 1946) M. 36 in. A very large wine red with a heavy yellow throat. Bright. H.M. 1948 **\$3.00**
- RED TORCH.** (H. Sass 1947) M-L. 35 in. One of the brightest of the new variegatas, this has golden amber standards and falls of a brilliant ruby red. H. M. 1947 **\$1.50**
- RED VALOR.** (Nicholls 1939) M. 38 in. A large, beautifully formed and clean petaled flower of glowing red purple. Excellent. H. M. 1940 **\$1.00**
- Rich, ruffled red that has fine form and
- *RED WAVES.** (Lapham 1948) M. 36 in. heavy substance. The parent of Mr. Laphams new reds **\$5.00**
- REDWARD.** (Cook 1942) M-L. 34 in. Broad, flaring red of fine quality. H.M. 1945 **\$2.00**
- REFRAIN.** (Tompkins 1950) M-L. 36-38 in. Our most beautiful light blend, this has large flowers with extremely broad, gardenia-like substanded petals. The form is similar to that of Honeyflow, one of its parents, but with a bit more flare to the falls and a delightfully fluted edge to the petals. The color is rich ivory cream, heavily flushed pink. A dusting cream, heavily flushed pink. A dusting and tinting of gold over the whole flower greatly adds to its beauty. Sold out for 1952.

- REDWYNE.** (McKee 1945) M. 37 in. Beautiful deep mahogany red of large size, heavy substance and glistening finish. H. M. 1945\$3.00
- RELENTLESS.** (Cook 1948) M. 38 in. A solid red self, slightly on the maroon side, this has fine rounded form and medium sized flowers. A fine new red. H. M. 1950 Net \$5.00
- REMEMBRANCE.** (Hall 1942) M. 38 in. A light pink blend of excellent form. A. M. 1944\$1.00
- *RENDEZVOUS.** (Tompkins 1950) M. 38 in. A large and beautifully formed plicata of extremely clear and bright coloring. The ground work is a rich chrome yellow and the petals are edged with a brighter shade of red toned orange. Standards are broad and well domed and the very broad falls flare horizontally. Substance is very heavy and the finish is silken. The brightest red and yellow plicata we have seen. Stock limited. H. M. 1950\$10.00
- *RICH RAIMENT.** (Craig 1949) M. 38 in. A very brilliant plicata of excellent form and extremely rich coloring. Ground color is deep cream that is so heavily speckled with rich copper red that the whole flower seems to be a shimmering red brown. One of our favorites and a real beauty. H. M. 1950\$7.50
- RIO VALLEY.** (Tompkins 1951) M-L. 38 in. Sold out for 1952.
- RIO ORO.** (DeForest 1942) M. 40 in. A smooth self of gleaming honey tan.....\$1.00
- ROCKET.** (Whiting 1945) M. 36 in. A large, bright yellow with a deep orange overlay on the falls. Well named. A.M. 1947.....\$3.00
- ROSE FESTIVAL.** (Klein 1945) M. 38 in. Bright rose pink with undertone of cream and copper. Lovely\$1.00
- ROSE OF HEAVEN.** (Schirmer 1946) M. 38 in. Deep old rose with a rich copper sheen and blue area on the falls.....\$1.50
- ROSEMOHR.** (Lewis 1949) M. 38 in. One of the best Mohr seedlings we have seen. Large beautifully formed flower of light mulberry rose with extremely broad rounded petals, a glistening leathery finish and the typical Mohr veining. Beautiful Net \$15.00
- ROSETOP.** (H. Sass 1943) M. 36 in. A gigantic plicata with standards of ivory white flushed rose and creamy white falls edged deep rose. H. M. 1943.....\$1.50
- ROSE GLOW.** (Muhl. 1951) M-L. 40 in. Flaring flower of light rosy red\$4.00
- ROSEMARY.** (Whiting 1947) M. 38 in. A very large orchid pink self of flaring form with slightly ruffled petals.\$.75
- ROSIRED.** (Craig 1949) M. 38 in. A large, full petaled flower of smooth medium red. A fast grower\$3.00
- ROSE AMES.** (Norton 1950) M. 36 in. A large well formed flower with broad well domed standards of lemon white at the base and lavender blue at the top. Falls are equally broad with a lemon white haft merging into a lavender blue base. Beard is deep lemon with white base. A different iris and a lovely combination Net \$7.50
- ROUGE BOUQUET.** (Whiting 1941) M. 35 in. A large, broad petaled flower of flaring form and deep red color tones.....\$.75
- ROYAL SCOT.** (Hall 1944) M. 38 in. Large plicata of creamy yellow with all-over markings of burgandy red. H. M. 1944 \$7.75
- RUBIENT.** (Whiting 1941) M. 36 in. A tailored neglecta in deep wine and pansy purple\$.75
- RUFFLED BOUQUET.** (Rees 1947) E-M. 38 in. A large, ruffled flower of rich cream. The standards are slightly deeper than the falls\$5.00
- RUFFLED GEM.** (Muhl 1951) M-L. 38 in. A large, nicely formed flower of deep golden buff. Very heavily ruffled\$4.00
- RUMBA ROSE.** (Whiting 1949) M-L. 38 in. A brilliant variation of the amoena class, this has warm orchid toned standards and glowing rose red falls. Unusual and very lovely\$2.00
- RUSSET MANTLE.** (Schreiner 1944) E-M. 38 in. A rich bicolor with buff tan standards and garnet brown falls. Different\$1.00
- *RUTH.** (Innes 1950) M. 38 in. A much talked about yellow that is said to be a shade deeper than Ola Kala, its parent. Flowers are very large with broad petals and a crimped and ruffled edging to the falls. The flaring falls are deep cream with a border of the deep orange yellow of the standards. H. M. 1951.....\$6.00
- SABLE.** (Cook 1938) E-M. 38 in. Rich black purple of excellent form and finish. Tops. A. M. 1940\$1.00
- SALMONETTE.** (J. Sass 1946) M. 36 in. Lovely salmon-toned shell pink with a deep pink beard. Good form and heavy substance.\$2.50
- *SALMON SHELL.** (Muhl. 1950) M-L. 36 in. A large, full flower of smooth salmon pink with self colored beard. Strong well branched stalk\$7.50
- SALUSKIN.** (Nelson 1948) M. 38 in. A very large flower in a smooth rich shade of salmon pink with a deep tangerine beard. There is an undertone of gold that brightens the whole flower.....\$2.00
- SAN ANTONE.** (Klein 1947) M. 38 in. A rich brown with an infusion of golden rose. Fine form and heavy substance. H. M. 1948\$3.00
- SANTA CRUZ.** (Mitchell 1945) E-M. 38 in. Very large, excellently formed flowers of rich coloring. Standards clear yellow, falls golden yellow with heavy red veins.\$.75

- SARAH GOODLOE.** (Douglas 1949) M-L. 38 in. A sister to Drum Major this is a deep maroon self with heavy substance and glistening finish. Strong well branched stalks. H. M. 1949 Net \$10.00
- ***SAVAGE.** (Craig 1949) M. 36 in. A large, deep bronze red heavily infused magenta. Good form and substance. H. M. 1951 \$10.00
- SEA LARK.** (Muhl. 1946) E-M. 38 in. large violet, flushed purple on the falls. Distinct and lovely. H.M. 1947..... \$2.00
- SELAH.** (Nelson 1948) M. 38 in. A nicely formed flower of good size with heavy substance and velvety finish that is done in light lavender blue with a sparkling gold throat..... \$2.00
- SHANNOPIN.** (Pillow 1940) M-L. 40 in. A fine bicolor with cream standards and pink falls. A good parent \$.75
- SHARKSKIN.** (Douglas 1942) M. 36 in. Smoothly finished, large white. Very broad petals and lovely form. Fine. A. M. 1946 \$1.00
- SHARON KAY.** (DeForest 1946) M. 40 in. Bright shining lilac with lemon tipped white beard. Lovely \$1.50
- SHERIFFA.** (White 1941) E-M. 39 in. A very large oncobred of blended violet and magenta red. Unusual and very metallic looking finish \$1.00

- STRATHMORE.** (Morris 1949) M. 38 in. A clean apricot pink with a red beard. A newcomer from England that should be a welcome addition to our present pinks. Strong excellently branched. Net \$15.00
- STRATOSPHERE BLUE.** (Lyell 1946) M. 38 in. One of the bluest, this is a rich ultra-marine of large size and good form. Choice. \$1.00
- SUEZ.** (Schreiner 1943) M. 35 in. A Wm. Mohr by M. Louis Aureau seedling, this has poor form but should be a fine parent \$1.00
- SULTAN'S ROBE.** (Salb. 1945) M. 36 in. Blended copper gold and rose red, with shimmering blue on the falls. A beautiful iris and a superb parent. H. M. 1946 \$1.50
- *SUNRAY.** (Hall 1950) M. 35 in. A new yellow of very beautiful form with heavy substance and a glossy sparkling finish. A seedling of Floradora it should be a fine parent for pinks as well as other colors. \$7.50
- SUNSET SERENADE.** (J. Sass 1943) M. 36 in. Very large golden blend from Prairie Sunset. Usually reblooms here. A. M. 1945 \$1.00
- SUNSET BLAZE.** (Klein 1948) E-M. 38 in. A gorgeous blend of flame red and bright salmon. Winner of the President's cup at the Oregon meet in 1949. A. M. 1951 \$5.00
- SUN SHADOW.** (Sapp 1949) M. 38 in. A rich sun yellow of large size and broad rounded form. A showpiece that everyone likes \$1.50
- SURRENDER.** (Tompkins 1951) M-L. 38 in. A very large, broad petaled and precisely tailored flower of a new and very lovely pattern, this is a very pure and almost velvety white with the upper half of the falls being deep canary yellow of smooth unveined coloring. The yellow merging into the white by a sanding of plicatalike markings. At times the flowers seem to have a faint hint of shell pink in their depths. One of the most beautiful new patterns we have seen. \$17.50
- SUSITNA SUNSET.** (Wilson 1947) M. 36 in. A really superb new blend in rich shades of brown, yellow and copper red. \$2.00
- SWEET MARIE.** (Muhl. 1951) M. 36 in. A very large, clean orchid self with a rich tangerine beard. Substance is heavy and the finish is silk and glossy. Well branched stalks. H. C. 1950 \$7.50
- SYLLABUB.** (Douglas 1950) M-L. 28 in. A beautiful flesh pink with a pure pink beard, this lovely self has perfectly domed standards and beautifully flaring falls. The substance is heavy and the flowers do not fade or burn. Excellently branched stalks. H. M. 1950 \$6.00
- SYLVIA MURRAY.** (Norton 1944) M. 38 in. A large, heavily substantenced flaring light blue. One of the top iris in this color. A. M. 1949 \$1.00
- SYMPHONETTE.** (Lyell 1949) M-L. 42 in. A tall, large flowered blend of rich dusty rose and lilac. Beautiful form and good substance \$1.00
- SYRINGA.** (Lowry 1947) M. 38 in. A large, excellently formed, clear lilac of good form and heavy substance. Choice \$2.50
- SUZETTE.** (Knowlton 1945) M. 40 in. A large plicata of rich cream with an edging of maroon. H. M. 1945 \$1.50
- TALLY-HO.** (D. Hall 1949) M. 32 in. A new and novel development in the pink line, this has bright clear standards and deeper falls with the usual brilliant tangerine beard. Said to be a fine parent. H. M. 1950 \$10.00
- TEA ROOM.** (Tharp 1946) M. 38 in. Blended orchid pink with silvery glow \$1.00
- TEA ROSE.** (Whiting 1944) M. 38 in. Beautiful, rich pink with a faint undertone of copper. Large flowers of good form. H. M. 1945 \$1.00
- TECHNICOLOR.** (Whiting 1950) M. 34 in. A brilliant, ruby red self with a light pattern of gold at the haft. A rich and glowing iris and one that is proving to be a fine parent. H. M. 1950 \$15.00

- THANKSGIVING FIRELIGHT.** (Austin 1950) M. 38 in. A large bicolor blend, this has tannish yellow standard and falls of golden tan flushed with red. Another new fall bloomer and a fine one. Net \$3.50
- THE ADMIRAL.** (Hall 1941) M. 38 in. A very fine medium blue. Rich finish and good form, with plenty of substance. A. M. 1944 \$.75
- THE CHIEFTAIN.** (Clev. 1948) M. 38 in. A tall, very well branched iris with large flowers of glittering copper. \$.75
- THE GUARDSMAN.** (Grant 1939) M. 37 in. Large, beautifully formed flower of soft mulberry with a pink edge around the falls. Lovely \$1.00
- THE KNOCKOUT.** (Muhl. 1951) M. 37 in. Another new combination in yellow, this has rich yellow standards and lighter falls with a heavy brushing of the bright yellow on the hafts. \$5.00
- THE PENGUIN.** (Goodman 1948) M. 38 in. A fine new plicata with satiny white ground, heavily edged rich chocolate brown \$4.00
- THISTLEBLOOM.** (Whiting 1951) M. 36 in. A sister to Maytime and Opera Pink, this is entirely different from either. Standards are a very pale orchid pink and the falls are deeper thistle, or lavender pink. Beautifully formed, the flowers are large with very broad petals. Strong well branched stalks. Net \$7.50
- THOTMES III.** (Klein, 1950) M-L. 40 in. A gigantic iris of glistening golden tan with a light bronze beard. The falls are extra broad and have a heavy texture. Net \$12.00
- THREE CHEERS.** (Cook 1945) M. 38 in. Large, tailored neglecta that is tops in this class. Rich, light blue standards and falls of deep ultra-marine. H.M. '46 \$1.50
- THREE OAKS.** (Whiting 1943) M. 38 in. Larger than its sister, Tea Rose; this is deep mallow pink with a coppery flush and a blue haze on the falls. A. M. 1949 \$1.50
- THREE SISTERS.** (DeForest 1942) M. 38 in. Cream standards and bright red falls. Bright and beautiful \$1.00
- TIFFANJA.** (DeForest 1942) M. 38 in. A broad, flaring plicata of cream white and deep buff yellow. Lovely. A. M. 1946 \$.75
- TIP TOP.** (Hall 1947) E. 35 in. A "different" plicata. Standards of violet blue. Falls of pure white and blue sanding on the haft \$2.00
- TISHOMINGO.** (Caldwell 1942) M-L. 40 in. A lovely, light wisteria blue of large size and fine form. A. M. 1944 \$1.00
- TOBACCO ROAD.** (Klein 1942) M-L. 34 in. A golden, tobacco brown self. Flaring form and broad petals. Wonderful. A. M. 1946 \$2.00
- *TRANQUIL MOON.** (Cook 1948) M-L. 40 in. A large flower with exceptionally heavy substance, sparkling finish and a crisply flaring form. The standards are light barium yellow with an edging of the same around the silvery white falls. Beautiful. H. M. 1950 \$1.00
- TRULY YOURS.** (Fay 1949) M. 38 in. One of the most talked of Iris of today. A huge flower of white with blending of gold across the haft and around the edges of the petals. Heavily crimped and ruffled. A. M. 1951 Net \$20.00
- TUNISIAN GOLD.** (Tompkins 1946) M-L. 36 in. A massive, but exquisitely formed flower of gleaming golden brown and French beige. A full golden beard and a brushing of red brown on the haft adds to its beauty. The substance is very lustrous \$3.50
- *TWILIGHT SKY.** (Fay 1949) M. 35 in. An exquisitely formed, clean clear light pink with a red tinted beard. Mr. Fay considers this to be the best of his many pink seedlings. H. M. 1950 \$5.00
- UMBA.** (Clev. 1947) M. 37 in. A large ruffled blend of peach lavender \$2.00
- VATICAN PURPLE.** (Whiting 1943) M-L. 38 in. Deep, bright purple of excellent form and finish. Choice. H. M. 1943 \$1.50
- VEISHEA.** (Whiting 1943) M. 36 in. Brilliant blend of coppery rose and blue. Heavy substance and excellent form. Wonderful parent. H. M. 1946 \$.75
- VELVET DUSK.** (Schreiner 1949) M-L. A very dark purple self with heavy substance and velvety finish. \$3.50
- VIOLET SYMPHONY.** (Smith 1940) E-M. 40 in. Gleaming violet of large size and perfect form. Very broad hafts and petals. A. M. 1943 \$.75
- VISION OF MIRZA.** (DeForest 1944) M. 40 in. A gigantic plicata of cream with all over markings of brown violet. Fine \$1.00
- *VISTA VERONICA.** (Bus 1950) M. 46 in. A gigantic flower of beautiful form with broad rounded petals. The color is a light orchid blue and the flower has a crepe like finish that is derived from the color makeup of tiny veins and nettings of orchid blue on a lighter ground. \$7.50
- VOODOO.** (Klein 1948) M. 35 in. A darker and more brown version of Mexico, this has a rich glowing finish. Fine \$2.00
- WAKARUSA.** (Lapham 1941) E-M. 36 in. A very bright blend of red and orange. \$.75

WAYFARER. (Mitchell 1948) M. 40 in. A larger and more ruffled version of Advance Guard. Very lovely and much admired here lasct year\$1.50

WAXY WHITE. (Muhl. 1950) M-L. 40 in. A tall, well branched pure white with a rich orange beard. Flaring form.....\$1.50

WEIRDIE. (Craig 1949) M. 37 in. A large flower of rich buff with an allover striation of rose\$5.00

WESTERN HILLS. (Brown 1951) M. 42 in. A warm golden tan with flushing of silvery plum over the rich copper falls. A fall bloomer.\$7.50

WHITE WEDGEWOOD. (Grant 1943) E-M. 38 in. A very large icy white with a blue beard. A beautiful iris and proving a fine parent. A. M. 1945\$1.00

WILD HONEY. (Whiting 1946) E-M. 36 in. A golden tan self with a flush of rich gold in the throat. Large well formed flowers.\$1.00

***WINDSOR.** (Tompkins 1950) M-L. 40 in. A large beautifully formed flower of deep, bright blue. The flaring, ruffled flowers are unveined, heavily substanded and nicely placed on the tall, well branched stalks. A brilliant color and one of the bluest iris we have seen. H. M. 1950. Stock limited.....\$20.00

WING COMMAND. (Tompkins 1948) E-M. 37 in. A beautifully formed flower of deep blue purple that is very cleanly fashioned. The petals have a heavy substance and rich gleaming finish. Standards dome nicely and the broad flaring falls are beautifully fluted.\$1.00

WINEBERRY. (Clev. 1948) M. 38 in. An unusual tone of wine and rose, very smoothly blended and flushed with pale gold at the throat.\$2.00

WINTER CARNIVAL. (Schreiner 1941) M. 38 in. A large flaring white with a yellow throat. Fine. H. M. 1942.....\$1.00

WONDERFUL. (Smith 1947) M-L. 37 in. A gigantic plicata done in cream with edgings of mulberry and purple.\$2.00

WORTHINGTON. (Cook 1943) M. 36 in. An extremely brilliant rose red of large size and good form\$1.00

YELLOW TOWER. (Muhl. 1950) M-L. 42 in. A tall, well formed flower of medium yellow. Broad petals with ruffling at the hafts\$2.00

ZANTHA. (Fay 1947) E-M. 38 in. A gigantic flaring flower of brilliant yellow that is completely free of haft venations. H. M. 1947.....\$4.00

ZEBULON. (Callis 1942) M. 36 in. A very large purple of leather like finish and with slightly ruffled petals. An Ormohr seedling\$1.00

SPECIAL GROUP NUMBER TWO

40c EACH

ANY 6 DIFFERENT FOR \$2.00; ANY 10 DIFFERENT FOR \$3.25

ANY 20 DIFFERENT FOR \$6.00

AMITOLA—Exquisite rosy gold blend.

ARETHUSA—Brilliant, light mulberry rose. Large.

BUCKSKIN—Large, flaring self of rich buckskin color.

BUTTERCUP LANE—Exquisitely ruffled, low yellow.

DUBROVNIK—Rich golden brown and rose blend.

E. B. WILLIAMSON—Choice, large red. Brilliant.

FRANK ADAMS—Gigantic flower of gold and red.

FRECKLES—A rich plicata of light yellow with cinnamon markings.

GLEN ELLEN—Large glistening buff yellow.

LADY NAOMI—Very large blue and white plicata.

LOUVOIS—Rich brown with creamy edge.

YELLOW FRILLS. 7 in. Heavily ruffled golden yellow. Lovely40
YLO. 8 in. Rich lemon yellow self with flaring form40
ZEA. 8 in. Delightful violet red Mohr hybrid	1.00

Hemerocallis

One of the most popular perennials of the day, the position of eminence the day-lily holds is increasing steadily each season. The flowers range in size from the tiny two inch multiflora hybrids to the fullpetaled giants having a spread of six to eight inches. Their finish varies in many ways. Some appear to be cut from velvet, others are satiny, some quite waxy appearing and some so infused with gold dust they appear to be of crystalline formation. They also vary in height, ranging from about eighteen inches to well over five feet. Through careful selection, you may have bloom in your garden from early June until frost.

We have been hybridizing daylilies since 1936 and have grown several thousand seedlings since then. Through the years, some selections have remained outstanding each season and have found favor with visitors as well as with ourselves, so we have decided to introduce the following varieties and hope that they will also find favor with you.

1952 INTRODUCTIONS

- CLAIR DE LUNE.** (Tompkins 1952) M-L. 36-38 in. A beautifully formed flower with broad petals and heavy substance. The petals are full and flat with some recurving at the tips where they twist and curl at their points. Sepals are quite broad and follow the same lines as the petals which in all gives the flowers a large, full-faced surface. A delightful lilt is added by the fluting at the tips of the petals. The color is a deep shade of cream which is intensified by a lovely zone marking of pale crystalline lemon. The plant is very hardy with dark green foliage and strong multiple branched stalks. An established plant will often have as high as eight blooms open at once on each stalk\$10.00
- FLEURED.** (Tompkins 1952) M-L. 40 in. Large, full formed flowers with broad flaring petals and broad, slightly recurving sepals. The red coloring is very smooth and extends well into the throat, leaving only a very tiny cup of green. Pistil and stamens are red, becoming green near the throatcup. Stalks are strong, and exceptionally wide and well branched. A good grower and rapid increaser Net \$15.00
- HUNTERS MOON.** (Tompkins 1952) M-L. 36 in. One of the largest flowers we have grown, with very broad petals and sepals, this might be classed as a near bicolor. The ground color of oyster white is lightly overlain with a faint lavender pink on the sepals and A heavier overlay of blended heather pink and buff completely covers the petals. The flower has extra heavy substance and a glistening lacquerlike finish. The form is flat and fullfaced with but little recurve to the petals. A deep chartreuse throat adds charm. Hardy plants with large foliage and strong, well branched, graceful stalks\$15.00
- RICH HARVEST.** (Tompkins 1952) M-VL. 48 in. A very large flower of long tubular, lily-like form with extra broad petals and sepals that are heavily ruffled along the edges. The flower is large enough that with the recurve of the petals it gives it a broad, full appearance, even though it is quite long and tubular. The color is a smooth glowing orange gold, even to the throat and anthers. Large, husky plants with extra strong and gracefully branched stalks\$10.00
- SUNSHOWERS.** (Tompkins 1952) M. 33 in. Large, full flowers with broad petals and sepals that have a slight recurve at the tips. The substance is very heavy and the self colored flowers of gleaming lemon buff have a sparkling iridescent finish that is intensified by an allover dusting and flaking of glittering pink and cinnamon crystals. Petals and sepals have a delightfully ruffled and crinkled edging. Very hardy plants with strong, well branched stalks.\$10.00

HEMEROCALLIS—GENERAL LIST

- ADMIRATION.** (Russell) M. 38 in. Livery flower of deep rose pink shades\$ 1.00
- AFLAME.** (Nesmith) M.L. 38 in. A rich flame red with deeper halo\$.50
- AFTERGLOW.** (Stout) M-L. 36 in. A lovely blend of luminous buff and peach pink with a deeper throat\$ 2.00
- ANNA BETSCHER.** (Betscher) M. v8 in. Rich golden yellow. Full form\$.50
- ARLINE.** (House) E-M. 42 in. One of the best in the orange class, this has large full blossoms on strong well branched stalks\$ 4.00
- AUGUST PIONEER.** (Stout) L. 38 in. A multiflora hybrid with many flowers of fine form and soft buff orange coloring. Beautifully branched stalks\$.50
- AUTUMN RED.** (Nesmith) M.L. 37 in. Bright Van Dyke red, flushed a brighter red. Orange throat and midribs\$.50
- BALLET DANCER.** (Nesmith) M. 38 in. Broad, beautifully formed flowers of lustrous buff pink, with pink predominating\$ 2.50
- BESS VESTAL.** (House) M. 36 in. Very large flowered dark wine red with rust infusion. Yellow throat\$ 4.00

BIJOU. (Stout) M. 30 in. A mutiflora hybrid with myriads of small flowers of rich bronze red	\$.50

Hybridizing Hints for Beginners

PART TWO

In continuing this article on hybridizing hints I want to stress the fact as I did last year that these are strictly—"Notes and Ideas," and while they are my own ideas as to varieties and crossings, I am, at your request taking up where I left off on the idea last year and I hope that you may find some ideas and theories of use. Copies of last years article are still available and will be mailed to you upon request.

PARENTS IN GENERAL

I do not believe that anyone can say which is the "Best" parent for any certain color and probably all of us who hybridize have certain varieties we like to use and which we think are very good. Following is a list of varieties that I think should give good results in each given color line.

PINK: SQ72 is already a proven parent and its offspring Pink Formal and Pink Tower are already well known and are proving fine breeders. Pink Tower producing some fine new things for me. All of the Hall pinks of course hold unlimited possibilities with Dolly Varden, Heritage and Hi-Time giving wonderful seedlings. Love Story with its smoothness and unexcelled form is producing fine seedlings both as pod and pollen parent. Chiffon Pink is a very fine parent and the new Cloudcap should be excellent as it has good branching, tall stalks and large flowers. Most of the pinks seem capable of producing an almost endless variety of colors from pure white through all the ranges of pink as well as Apricot, Orange, Yellow and Orchid colors. I have found that Pink Salmon, Salmon Shell, Tally Ho, Color Carnival and Apricot Supreme give the best range of colors with the highest percentage of good seedlings. Twilight Sky and Love Story have so far given the highest percentage of pure pinks. Of course there are a great many varieties that probably carry the Gene for these pinks that haven't as yet been tried. For instance my own results with Sharkskin which when crossed with SQ73 produced a great many pinks. Many of these were quite off the Norm, being rich cream toned pinks of thick Magnolia like texture and often with yellow beards. Pathfinder is producing some fine things both for the Whitings and for myself, these are the largest and most full bodied flowers I have seen in pink and are very smooth I do think that the pinks of today can be placed in three classes. All of the above might be classed as translucent pinks and it seems to me that they very definitely show their relationship. The second class I would say to be the Sass pinks for they seem to be of a slightly different type the color smoothly infused in and enameled on. The two smoothest colored pinks I have seen to date being Sass 48-196 and 50-227. Since these stem from Flora Zenor it seems that Flora should not be ignored as a parent. Among my own varieties Snowblush is of this type and it is a direct child of Flora. These varieties seem to have a form of their own as well as a difference in color application. In this class too are both Pink Sails and Garnet Glow. They, too, stem from Dore as does Flora Zenor and seem to have the same color infusion and difference in form. In the third class I would place the Lapham pinks such as Paradise Pink. The Lapham pinks seem to have a still different application of coloring. On them the color seems to be very, very heavily powdered on and they have no translucent or transparent look nor an appearance of the color being infused into the petals.

I believe that if you will study these different pinks you will be able to see this difference in color makeup and form and since each of the three types of pinks have desirable characteristics of their own I believe that a deliberate schedule of interbreeding of these lines will produce further advancements. I feel that the pinks hold many other possibilities in breeding that as yet haven't been brought out. Many breeders are working to get reds through the pinks and this I feel is highly possible. One that might well be used in this line is Garnet Glow which is from two brown red blends but which is itself deep Garnet with a heavy red beard. There is still another field that might be tried with the pinks which may open up vast new color vistas and that is the use of the pinks in Amoenas breeding I have been combining certain of the pinks such as Tally Ho, Color Carnival and some other bitoned pink seedlings with definite amoenas and neglectas such as Wabash, Extravagana, Three Cheers, Louise Blake and the other new type amoenas such as Rhumba Rose, Pinnacle and Lamplit Hour I believe this work will bring several new color types. More might be said about this work in another year. Real Orange might well come through the pinks as highly orange tinted apricots quite often appear in the pinks and I have had one bicolor with orchid standards and pure orange falls. I understand Tell Muhlestein bloomed several orange seedlings from the pink lines last year so that goal may already be achieved.

RED: There are many fine reds and all of them hold great potentialities. Since the following are already established as being good parents you can't go wrong on them. Redward, Garden Glory, Lights On, Captain Wells, C. Gersdorff, Diplay, Ranger, Red Valor and Action Front as well as others. My own best results have come from working along several lines, at times inbreeding and at times outbreeding or combining several different lines. I do consider some varieties unfailing parents for reds—varieties that are not themselves red. These are Casa Morena, Cape Bon and Jasper Agate. Rocket and Damascus, though orange, are both good parents for red. I would say it was the great predominance of red in the seedlings from Damascus that led to the breeding lines that have given me my present reds such as Aria, which is a sure fire parent, and Manana which is the parent of No. 50-90. Kwilsena, Apex, Bandit, Britannia, Caravan, Dark Fire and Ebony Echo are also producing fine clean seedlings in good red colors. These all involve Casa Morena, Cape Bon, Garden Glory, Jasper Agate, Redward, Damascus and Rocket in their ancestry and if you will follow the parentage through on each you will see where various lines have been brought together.

Of course there are numerous other ways in which one might achieve red. I am also trying to reach bright red by working through the deep flamingo and magenta red or purples with the red beards. Mr. Lapham tells me he is working this line also, as is Henry Sass, so you too might keep this in mind when working for your "Red."

BENDS: Good parents here are too numerous to list but good seedlings from the following should be endless. Tobacco Road, Sultans Robe, Casa Morena, Melodist, Mirabelle, Veishea, Three Oaks, Gypsy Rose, Cape Bon, Lady Albright, Russet Wings, Miogem, Honeyflow, Argus Pheasant, Pretty Quadroon, Copperclad, Arab Chief and many more both old and new.

WHITES: There are now a number of very fine whites available in a wide price range, all of which seem to be fine parents. Among them are Katherine Fay, Cathedral Dome, White Goddess, Sharkskin, Snow Carnival, Snow Flurry, Chi Yun, Spanish Peaks and Lady Boscawen. Among good parents for icy or blue whites I have found the following to be very good: White City, And Thou, White Wedgewood, Mount Blanc and White Waters.

PLICATAS: This field is so large, possibilities endless and variations so great that almost any cross seems to give something lovely and unexpected. I feel that here you will be able to use almost any varieties and get something you will like. You may use direct plicata parents or any one of a vast number of varieties that are not plicatas but do carry plicata blood in their background. I have found that certain varieties do carry fine color and form into their seedlings. Tiffanja, Ruth Pollock, Occidental, Rare, Marble, Bright Lights, Firecracker and Blue Shimmer all seem to carry fine form and color as should their descendents. Captivation is giving me an extremely high percentage of good seedlings. Older Tiffany seems to be behind a lot of fine new things some of the above included as well as the stunning Josephs Mantle, Weirdie and Rich Raiment and others by Tom Craig.

BLUES: In this class we find Great Lakes still holding its own as a top notch parent. We now have about all the "size" we need and the battle for "color" and "smoothness" seems to be on. Almost any blue listed should be interesting. I would say to select those that are best for color and those most free from veining except for the fact that many veined flowers such as Lake Shannon do not carry a lot of veining into the second generation so certainly some of them are good parents. Personally I consider Lake Shannon very blue as is Lake Huron, Stratosphere Blue, Cornflower and Blue Valley and many more. While these may be veined we will get a percentage of clean blues even the first generation so I would suggest working varieties such as these with clean unveined varieties such as Cahokia, Blue Rhythm, Pierre Menard, Gloriole, Frosty Blue, Distance and others of that type. I have been working up a line from Narain which while an old variety is still one of the brightest blues in the garden and probably one that has been the least used as a parent. It has a quality in its coloring that fairly seems to shout at you, a quality which it seems to impart to its progeny. A blue bearded sister to Courtesy when crossed with a blue from Annabel and Narain, gave me a host of fine blues from which I have chosen Columbia for introduction. The whole cross produced blues with the same brilliance of Narain but with almost perfect blue color even to the beards. And while I have not done so, I should like to see crosses made with Narain involving other blues such as Cahokia, Helen McGregor, Great Lakes, Azure Skies, Gloriole, Chivalry, Windsor, Consolation and others including whites. Helen McGregor seems to be a fine parent as anyone who has seen Guy Rogers new Senorita Ilse and Lady Rogers, can testify. They came from Helen McGregor as the pod

parent with Sylvia Murray as pollen parent and both are as fine as anything I have ever seen.

Galway Bay with its fine branching, excellent form and pure light coloring should be a fine parent.

YELLOWs: We have many fine yellows today, but I can remember when Alta California and Happy Days were the high points of my garden; I can remember the thrill that was mine when I first saw Golden Spike and Spun Gold; I can remember the gasp that Gold sovereign brought, so who knows what tomorrow will bring? If you are a beginner to hybridizing—don't, as some wrote me, think that the ultimate has been reached in this class, the ultimate is never reached. There is no difference between then and now as far as you are concerned—except you will be starting out with things like Gold Sovereign, Zantha, Ola Kala, Nova Grande and the like where we older hands started out with the aforementioned Alta California and Happy Days. Don't worry about it, your tomorrows and tomorrows children will be different. If I were starting out from "scratch," which I always am, I think I would get a few different lines going. For smoothness and clarity of color I would use Zantha, Golden Eagle, Nova Grande, Golden Rule, Cloth of Gold and Guiding Star or Goldbeater, Golden Spike, Klondyke Gold and Late Sun. Besides smoothness these would hold for size. To step up brightness I would use Gold Sovereign, Lodestone, Damascus, Rocket, Orange Gem and such reds as Aria, Technicolor, and Quechee. Any number of combinations could be had with equally numerous results.

LEMON YELLOW: There are in my estimation two different types of Lemon Yelows. There are those that stem directly from yellow breeding such as Admiration, Acadia, Katy and Guiding Star which is the best example of this type I have seen. These lemons might be called byproducts of yellow breeding but much might be done with them. I have segregated a number of the type from various lines and plan on further work here. The other type of Lemon yellow comes from plicata breeding and we have a number of them that can be worked with, from the old but still lovely Elsa Sass up to the new and stunning varieties such as Clear Sailing, Mattie Gates, Moonlight Mood and Belle Amie. These could be used with others of the type such as Leading Lady, Golden Fleece, Moonlight Madonna and Misty Gold. All of these are from plicata breeding with the possible exception of Leading Lady and all have much white in their makeup. Interesting results should come from direct crossing of these plicata derivatives. However, the most interesting results will probably be obtained by using them with direct plicatas.

BLACKS: I have done no great amount of work in this line but would suggest the use of Paul Cooks varieties such as Sable and Indiana Night as well as DeForests Envoy and Ebony Isle and Schreiners Black Forest. Storm King and its derivatives seem to be good. Dusky Night and Ebony Queen should be useful here as well as The Intruder. The newer Black Hills, Black Diamond, Black Satin and Sable Night should all be excellent.

AMOENAS: In this class we have Wabash, Extravaganza, Louise Blake, Helen Collingwood, Gaylord, Criterion and a number of others. Wabash is now said to be surpassed by Gaylord and Criterion. I think in breeding these, one should perhaps place Neglectas such as Lothario, Three Cheers, Amigo and some of the above all in the class with the amoenas. Other things might be used such as Three Sisters, Shannopin, Rhumba Rose as well as the light yellow amoenas Pinnacle, Lamplit Hour and Fairday. Further possibilities in this class are the shell or flamingo pinks. (See Pink class).

IRIS SEEDLINGS

SELECTED SEEDLINGS —Numbered and with parentage	\$1.00
SEEDLINGS —Involving new reds and pinks with numbers and parentages	\$2.00
